**Using Free Scribus Software to Create Professional Presentations: Book Covers, Magazine Covers, Graphic Designs, Posters, Newsletters, Renderings, and** Alice Chen,Gang Chen,2010-12-12 About 80% of people have the desire to write a book at some point With the advance of computer and printing technology this dream can become a reality One important factor of publishing a book is to create a professional looking book cover This book uses book cover design as a case study to teach you how to use FREE Scribus software instead of expensive professional software like InDesign Photoshop and QuarkXpress to create professional presentations With fewer words and many full color screenshots we walk you step by step through the entire process No prior experience is needed You will learn how to 1 Download all the FREE software needed 2 Put the cover template in correct formats 3 Set up the sheet correctly using units colors RGB or CMYK layers the imported cover template sizes guides bleed area and safety margin 4 Add the background color for the cover with a shape or image frame 5 Add the cover image and author s photo as well as how to handle a fully bleed image 6 Add the titles and text accurately including information on selecting or changing the text color using the text box centering the text aligning different text boxes and rotating the text 7 Add the barcode by extracting the barcode from an EPS file and moving all the barcode elements together or by adding the barcode as a JPEG image file 8 Use Scribus software to create professional presentations such as book covers magazine covers graphic designs posters newsletters renderings and more About the authors Alice Chen is an avid Scribus user She has extensive interest in presentation software and resides in California Gang

Chen holds a master's degree from the School of Architecture University of Southern California USC Los Angeles and a bachelor's degree from the School of Architecture South China University of Technology He has over 20 years of professional experience Many of the projects he was in charge of or participated in have been published extensively in Architecture Architectural Record The Los Angeles Times The Orange County Register etc He has worked on a variety of unusual projects including well known large scale healthcare and hospitality projects with over one billion dollars in construction costs award winning school designs highly acclaimed urban design and streetscape projects multifamily housing high end custom homes and regional and neighborhood shopping centers Gang Chen is a LEED AP and a licensed architect in California He is also the internationally acclaimed author for other fascinating books including Building Construction Planting Design Illustrated and the LEED Exam Guide series which includes one guidebook for each of the LEED exams

*Cool Cities* Benjamin R. Barber, 2017-04-24 A pointed argument that cities not nation states can and must take the lead in fighting climate change Climate change is the most urgent challenge we face in an interdependent world where independent nations have grown increasingly unable to cooperate effectively on sustainability In this book renowned political theorist Benjamin R Barber describes how cities by assuming important aspects of sovereignty can take the lead from faltering nation states in fighting climate change Barber argues that with more than half the world's population now in urban areas where 80 percent of both GDP and greenhouse gas emissions are generated cities are the key to the future of democracy and sustainability In this compelling sequel to *If Mayors Ruled the World* Barber assesses both broad principles of urban rights and specific strategies of sustainability such as fracking bans walkable cities above ground mining of precious resources energy and heating drawn from garbage incineration downtown wind turbines and skyscrapers built from wood He shows how cities working together on climate change despite their differences in wealth development and culture can find common measures by which to evaluate the radically different policies they pursue This is a book for a world in which bold cities are collaborating to combat climate change and inspire hope for democracy even as reactionary populists take over national governments in the United States and Europe It calls for a new social contract among citizens and municipalities to secure not only their sustainability but their survival

**Leed Green Associate V4 Exam Complete Study Guide** A. Togay Koralturk, 2015-11-09 PASS THE LEED GREEN ASSOCIATE EXAM WITH FLYING COLORS Having been widely adopted as the primary course material for bachelor's and master's degree classes in architecture and civil engineering in the universities all over the United States the LEED Green Associate V4 Exam Complete Study Guide provides deep insight into the principles of green building and helps the reader to learn rather than to memorize the essential information for the exam Thus this approach equips candidates to successfully pass the LEED Green Associate exam with flying colors in order to actively apply green building and LEED principles in real life This book is the only resource a candidate needs in order to successfully pass the exam As LEED v4 is quite different in comparison to the former versions the book was entirely re-written thus it was not updated from a previous edition All of the chapters contain guidance on the aspects that require extensive attention while the book points out the finer details to focus on for the exam purposes It does not matter how much time passes after taking the exam as learning the real reasons behind the green building and LEED principles through observation will help to consolidate this information concisely Even though the LEED Green Associate exams are sometimes referred to as conceptual exams in reality the exam goes well beyond that Without diving into the LEED prerequisites and credits a candidate cannot ever guarantee passing the test as a result the book covers the core concepts of each LEED credit category and then evaluates the LEED prerequisites and credits to demonstrate how those green building concepts turn into real projects with LEED requirements Pass the LEED Green Associate exam with flying colors Thoroughly understand and apply the green building principles for life and retain all the information you have learned Apply the green building and LEED principles in real life Know all the important things to consider during the exam beforehand The book is also recommended for students professionals and anyone who has not chosen to take an LEED

professional exam but nonetheless retains a strong interest in LEED and green buildings *Poplar LEED V4 Green Associate Study Guide and 100 Question Practice Test* Rob Freeman, 2016-06-24 The only study guide you will ever need for the LEED Green Associate exam Includes full 100 question practice test terms and definitions glossary and exam preparation strategy **USGBC LEED Green Associate Study Guide**, 2009 This study guide is a resource to help you prepare for the LEED Green Associate Examination It summarizes the critical points of green design construction and operations To help you master its content the guide has been packaged with the Green Building and LEED Core Concepts Guide one of the reference documents for the LEED Green Associate Exam Within each category of the guide you will find a variety of study tools including category reviews review questions and worksheets learning activities and practice questions
