concettualmente il dibattito sui fondamenti fisici ed epistemologici della meccanica quantistica Di quest ultima vengono

quindi esplorate tutte le diverse interpretazioni che si sono susseguite nel tempo dal dialogo tra Einstein e Bohr ai paradossi del gatto di Schrödinger e dell'amico di Wigner dalla teoria dei molti universi a quella della decoerenza e le teorie alternative alla sua interpretazione ortodossa con una particolare attenzione alla teoria di Ghirardi Rimini e Weber elaborata all'Università di Trieste e alla meccanica bohmiana. Il lettore vi troverà inoltre tutti i temi al centro del dibattito sulla meccanica quantistica dall'entanglement quantistico alla non località. Completano il testo undici appendici matematiche per il lettore che volesse approfondire rigorosamente le questioni concettuali presentate nel dialogo in maniera più divulgativa. Un libro pensato per chiunque voglia accostarsi con curiosità intellettuale a un dibattito filosofico ancora in corso.

Autofiction, Emotions, and Humour Alexandra Effe, Arnaud Schmitt, 2022-12-26. Autofiction is often associated with humour irony and play. Moreover authors of autofictional texts are frequently criticised for a lack of seriousness or for failing to straightforwardly and in their own voice engage with a given topic. Yet very few autofictional texts are exclusively or even primarily playful. Many employ humour and irony to address very serious subject matter. This volume explores how these seemingly opposed characteristics of autofictional texts in fact work together. The contributions in this volume show that autofictional texts often make use of humour and play in a productive and meaningful way tackling issues such as human rights violations historical and collective as well as personal trauma and struggle with psychological or physical illness and abuse. On the basis of geographically wide ranging case studies including texts from South America South Africa the United States and Europe this book explores how in which contexts and to which effects autofictional texts reveal their authors complex and often painful psychological experiences and engage the emotions of their readers. This book was originally published as a special issue of the journal *Life Writing*.
