**The Global Forest Sector** Eric Hansen,Rajat Panwar,Richard Vlosky,2013-12-04 Changes in production demand supply and trade patterns the impact of green building and bioenergy on industry practices and policy infrastructure and new economies with production advantages and large consumption bases all present challenges and opportunities in the forest sector With contributions from leading experts in academia and professional organizations The Global Forest Sector Changes Practices and Prospects fills a gap in the literature that is preventing students scholars and policy makers from developing a timely structured big picture view of forest sector business In addition the book reviews current thinking on a wide variety of business management issues in the forest sector The book covers managing change in the global forest sector and the impact of globalization on forest users It discusses markets and market forces new products and product categories and the influence of China and Russia The book then examines the environmental paradigm including environmental activism sustainability and the impact of green building and bioenergy The book concludes with coverage of the role of information technology corporate social responsibility innovation and next steps Overall this book helps readers both develop a bird s eye view of the changes surrounding the forest sector as well as have a magnified view of numerous managerial issues associated with these changes The content paints a picture of the current and changing forest sector including the state of forests the nature of markets the newly emerged patterns of stakeholder impact and evolution of key business practices It provides the foundation needed to develop the conservation based economy required for future success in the global forest sector

**Product Stewardship in Action** Helen Lewis,2017-09-08 Product Stewardship in Action describes how and why leading companies are taking responsibility for the environmental impact of their products and packaging Product stewardship often

referred to as extended producer responsibility or EPR is the idea that everyone that benefits commercially from a product including manufacturers distributors and retailers has a shared responsibility to minimize its environmental impacts Written primarily for a business audience it draws on the knowledge and experience of industry practitioners and other experts to provide a structured approach to product responsibility within firms This will help those new to the field as well as more experienced practitioners to develop an effective response to stakeholder concerns about the environmental impacts of their products and packaging Unlike other resources on product stewardship and EPR which tend to focus on the design or evaluation of public policy this book highlights the business case for action It argues that companies can achieve shared value both public and commercial value when they take a proactive and knowledge based approach to the life cycle management of their products Product Stewardship in Action focuses on product stewardship as an effective business strategy rather than a philanthropic exercise To be effective it needs to be based on a good understanding of product impacts and stakeholder concerns and the risks and opportunities that these present to the business The most effective responses will be those that address material issues in the product life cycle while supporting the achievement of other corporate goals and priorities
