

The background of the cover features a detailed illustration of various microscopic organisms. In the foreground, there are several large, spherical, yellowish-green structures, possibly spores or cells, with internal orange and red patterns. A prominent, branching, filamentous structure, likely a fungus or alga, extends across the middle of the cover. In the background, there are numerous smaller, similar spherical structures, some appearing to be in different stages of development or division. The overall color palette is dominated by warm tones of yellow, orange, and red against a dark, almost black background.
