## **Moderator Variables In Multiple Regression Analysis:**

International Journal of Development Research and Quantitative Techniques , **Regression Analysis for Categorical Moderators** Herman Aguinis,2004-01-01 Does the stability of personality vary by gender or ethnicity Does a particular therapy work better to treat clients with one type of personality disorder than those with another Providing a solution to thorny problems such as these Aguinis shows readers how to better assess whether the relationship between two variables is moderated by group membership through the use of a statistical technique moderated multiple regression MMR Clearly written the book requires only basic knowledge of inferential statistics It helps students researchers and practitioners determine whether a particular intervention is likely to yield dissimilar outcomes for members of various groups Associated computer programs and data sets are available at the author s website <http://mypage.iu.edu/haguinis/mmr> **Intermediate Statistics** Brett W. Pelham,2012-08-20 Intermediate Statistics A Conceptual Course is a student friendly text for advanced undergraduate and graduate courses It begins with an introductory chapter that reviews descriptive and inferential statistics in plain language avoiding extensive emphasis on complex formulas The remainder of the text covers 13 different statistical topics ranging from descriptive statistics to advanced multiple regression analysis and path analysis Each chapter contains a description of the logic of each set of statistical tests or procedures and then introduces students to a series of data sets using SPSS with screen captures and detailed step by step instructions Students acquire an appreciation of the logic of descriptive and inferential statistics and an understanding of which techniques are best suited to which kinds of data or research questions Knowledge Sharing in Research Collaborations Benjamin Niedergassel,2011-04-05 Based on a large scale survey Benjamin Niedergassel identifies several factors enhancing or inhibiting knowledge sharing in research collaborations He uses these factors to derive practical implications for academia industry and research policy **Applied Multivariate Research** Lawrence S. Meyers,Glenn Gamst,A.J. Guarino,2016-10-28 Using a conceptual non mathematical approach the updated Third Edition provides full coverage of the wide range of multivariate topics that graduate students across the social and behavioral sciences encounter Authors Lawrence S Meyers Glenn Gamst and A J Guarino integrate innovative multicultural topics in examples throughout the book which include both conceptual and practical coverage of statistical techniques of data screening multiple regression multilevel modeling exploratory factor analysis discriminant analysis structural equation modeling structural equation modeling invariance survival analysis multidimensional scaling and cluster analysis **Construction Dispute Research** Sai On Cheung,2014-07-08 There are three specific purposes of Construction Dispute Research First this volume aims to summarise studies on construction dispute Second apart from the theoretical constructs where appropriate empirical tests are also included This approach serves to go beyond the commonly used anecdotal approach for the subject matters Third it is the sincere hope of the authors that this book will help shaping research agenda of construction dispute The studies are mostly framed from a management perspective drawing on methods

and concepts in contract law economics psychology and management science The book has twenty chapters that are arranged in four parts covering conceptualisation avoidance negotiation and mediation Part 1 is devoted for dispute conceptualisation A building is only as strong as its foundation Thus it is no better start to study construction dispute by conceptualisation The theme of Part 2 is dispute avoidance The conventional wisdom of prevention is better than cure seems can be applied to all problems As far as construction dispute is concerned equitable risk allocation and trust are the two most commonly accepted avoidance strategies Part 3 focuses on negotiation that is the gateway to resolution as almost all disputes are negotiated first before the service of other mechanisms Negotiation is sometimes described as an art because settlement may not be obtained solely from legal and rational approaches Part 3 discusses the behavioral dimensions of construction dispute negotiation Part 4 deals with Mediation a form of assisted negotiation Specially the skill of the mediators in facilitating settlement the interrelationships among dispute sources mediator tactics and mediation outcomes are explored The studies presented in Construction Dispute Research collectively demonstrate holistic approach in dispute management Each chapter can be read as a study on its own Practitioners will find the book a handy reference in dispute management and resolution Students would find the book useful in explaining in details the causes of dispute the processes to resolve them The research design and empirical approaches are particularly useful to students in construction management architectural surveying and civil engineering programs
