Characteristics of Investments

Define investment:
Assets purchased with the goal of providing additional income from the asset itself but with the risk of loss.

Investments have the potential for higher returns.

Define return:
Profit or income generated by saving and investing.

All investments have some risk.

Define investment risk:
Possibility that an investment will fail to pay the expected return.

Investments are important to building net worth.

Why are investments less liquid than savings tools?
They may not be easily converted to cash or penalties charged to access the funds early.

Investments are for long term goals.

Two examples of long-term goals are:
Buying a house and a higher education.

Rate of return:
Total return on investment expressed as a percentage of the purchase price of the investment

Strive to have the rate of return on an investment be higher than the rate of inflation.

Define inflation risk:
Decreased
