

SIXTH EDITION

The Modern Conductor

ELIZABETH A. H. GREEN

Written in a clear style that speaks directly to the student, *The Modern Conductor, Sixth Edition*, has been updated to include both established and innovative techniques vital to the training of the conductor.

Believing that conducting is a time-space activity, author Elizabeth A. H. Green provides strong pedagogical support, underemphasized until presented by the great Russian conductor Nikolai Malkin. Taking new research on brain research, Green suggests that the hand learns whatever the mind teaches, and that serious development of manual technique as well as mental skills will help young conductors achieve professional success.

Among the topics included are:

- The Usefulness of the Baton
- The Expressive Gesture
- Phrasing, Tempo Changes, Endings
- Developing the Left Hand

Musical innovations of the twentieth century are explored, as well as instrumental conducting, choral conducting, and applied musicology as related to the hand, orchestra, and chorus. Important ideas are highlighted to enable the reader to find them quickly, and drills are inserted in the text to reinforce critical concepts.
