Career Planning For Teens Framework:

Young People's Career Development and Wellbeing Elizabeth Knight, Belgin Okay-Somerville, 2024-10-22 This book explores how career development experiences during education are relevant for wellbeing in youth career transitions from an interdisciplinary lens using longitudinal data from different national educational contexts Seven empirical chapters culminate in a conceptual model and recommendations for careers and wellbeing oriented prevention and intervention programs to assist young people as they transition into the world of work Following a foreword by Professor Stephen Lamb the Springer International Study of City Youth series editor and introduction by the editors the book consists of empirical chapters based in six national and educational contexts focusing specifically on schooling higher education and transitions between compulsory schooling and young adulthood Each national context chapter generates insights based on a longitudinal cohort study with at least two data points concerning information on young people s career development and wellbeing The empirical chapters are followed by discussion and conclusion chapters by the editors The editors reflect on the evidence generated in this book and question what we know about the relevance of career development experiences on young people s wellbeing during education to work transitions Implications of these empirical findings on career interventions and policy making across the educational systems are discussed The contributions in this book show that career development experiences while in education matters not only for employment outcomes but also for our subjective wellbeing in early careers Key conclusions point towards a need for theoretically integrating i the sensemaking role of time ii resource based approaches to careers as well as iii the efficacy of career development experiences to overcome structural inequalities Methodologically this book shows the value of nationally representative longitudinal datasets that focus on young people s educational and labour market experiences

Resources in Education ,1981 *Toward an Ecology of Youth Career Development* Chong-Hee Yoon Chin,1986 Career Development as a Partner in Nation Building Australia Wendy Patton,2019-07-15 Despite examples of vocational guidance practice being evident in Australia since the mid 1800s there remains a spasmodic and patchwork approach to practice across the country For decades it is a field which has been paradoxically boosted and challenged by changing economic and political agendas Repeated international national and State reviews emphasise the vital nature of a systemic national approach to career development however authors repeatedly lament the lack of a sustained focus on career activity as a major national priority There is no broad comprehensive historical reckoning of the history of career development theory and practice in Australia since this early period Career development theory and practice in Australia has been forged in partnership with developments in an international context In documenting the shared history with other countries the author significantly adds to the body of knowledge on career development as a field in Australia and internationally The book provides new understandings about the historical development of this field of knowledge and in particular the challenging and cyclical nature of its policy history Career
