*I write with a right slant

I'll loan you \$10.00*

*I write with a left slant
I don't care if you need it
I have problems of my own.*

*I'm all mixed up I don't
know what to do.*

- Graphology is the pseudoscientific study and analysis of handwriting, especially in relation to human psychology. The graphologist looks at a sample of a person's handwriting and uses it to diagnose a number of personality traits.
- Forensic handwriting analysis, on the other hand, is the scientific comparison of a known sample of a person's handwriting to an unknown sample. If possible, the experts use several known examples for the comparison.
