Methods and Domain Decomposition Patrick J. Roache, 1995-06-29 One of the first things a student of partial differential
equations learns is that it is impossible to solve elliptic equations by spatial marching This new book describes how to do
exactly that providing a powerful tool for solving problems in fluid dynamics heat transfer electrostatics and other fields
characterized by discretized partial differential equations Elliptic Marching Methods and Domain Decomposition
demonstrates how to handle numerical instabilities i e limitations on the size of the problem that appear when one tries to
solve these discretized equations with marching methods The book also shows how marching methods can be superior to
multigrid and pre conditioned conjugate gradient PCG methods particularly when used in the context of multiprocessor
parallel computers Techniques for using domain decomposition together with marching methods are detailed clearly
illustrating the benefits of these techniques for applications in engineering applied mathematics and the physical sciences
