W. Spinks,John N. Deely,2000 Over the past twenty years the annual meetings of the Semiotic Society of America have tracked growth and development of modern sign theory in American scholarship Since 1981 the published proceedings of SSA meetings have included representative semiotic work from a wide range of disciplines and every extant system of semiotic thought The papers have especially represented some of the leading intellectual descendents of C S Peirce and Ferdinand de Saussure in the United States and Canada On this ground the series of Proceedings remains the primary record of North American contributions to sign perspectives embracing world wide philosophical literary and scientific bases for a 21st century doctrine of signs The proceedings project has consistently pursued excellent scholarship representative diversity and quality production With publication of the Semiotics 1993 Semiotics 1994 Semiotics 1995 Semiotics 1996 Semiotics 1997 Semiotics 1998 and Semiotics 1999 volumes general editor John Deely and the Semiotic Society bring these important yearbooks to Peter Lang Publishing With this change the society is certain to further enhance the SSA proceedings volumes and continue a record of representing American semiotics The SSA also plan to incorporate more voices from Mexico in an effort to achieve a comprehensive North American semiotic which is strongly linked to practical and theoretical developments across the world **Meaning and History in Systematic Theology** Robert M. Doran,2009 This Festschrift is written in honor of theologian and philosopher Robert Doran one of the most creative and important Lonergan scholars working today His

magnum opus *Theology and the Dialectics of History* 1990 integrated his reworking of depth psychology into a theory of history that serves as a foundation not only for systematic theology but also for interdisciplinary collaboration. It relies on Lonergan's seminal contribution to the reversal of the post-Enlightenment crisis of meaning that is his emphasis on the subject's intelligent and responsible self-appropriation as the foundation of epistemology, metaphysics, and human collaboration. Doran's achievement is a profound development of this work and it provides fecund ground that enables Lonergan's legacy to make itself felt across the humanities, the human sciences, and beyond. The range of contributions contained in this volume points to the immense significance of Doran's work and they cover topics as varied as communication studies, critical history, depth psychology, pastoral theology, philosophy, religious diversity, and systematic theology. These different concentrations ensure that this collection of essays is of use to readers who are curious about the relevance of Lonergan's critical realism to a breadth of scholarly disciplines. It is also of acute interest to established scholars who are well aware of the merits of Doran's contributions to Lonergan Studies and who wish to gain an understanding of the directions in which his work is being both employed and developed.
