Using diagrams to explain Serres thought the first half of the book carefully explores Serres global intuition how he understands and engages with the world and his figures of thought the repeated intellectual moves that characterise his unique approach. The second half explores in detail Serres revolutionary contributions to the areas of language objects and ecology. All told Watkin shows that Michel Serres has produced a cross disciplinary body of work that provides a crucial and as yet under exploited reference for current debates in post humanism object oriented ontology ecological thought and the environmental humanities.

These innovative and original commentaries give Kierkegaard a fresh look and bring him into present day discussions and debates in continental philosophy. Contributors are Jacob Baggild John D Caputo Mark Dooley Joakim Garff Robert Gibbs Elsebet Jegstrup Richard Kearney John Llewelyn Roger Poole Vanessa Rumble John Vignaux Smyth Jason Wirth and David Wood.

Anna Fariello, Paula Owen, 2004 *Objects and Meaning* expands upon a national conversation questioning how various academic disciplines and cultural institutions approach and assign meaning to artist made objects in postmodern North America. Although most of the discourse since the mid 20th century revolved around the split between art and craft the contributors to this collection of essays take a broader view examining the historical cultural and theoretical perspectives that defined the parameters of that conversation.
