Automatic Multiple Choice Question Generation System for Semantic Attributes Using String Similarity Measures

Ibrahim Eldesoky Fattoh
Teacher Assistant at faculty of Information Technology, MUST University, Cairo, Egypt.

Abstract

This research introduces an automatic multiple choice question generation system to evaluate the understanding of the semantic role labels and named entities in a text. The system provided selects the informative sentence and the keyword to be asked based on the semantic labels and named entities that exist in the sentence, the distractors are chosen based on a similarity measure between sentences in the data set. The system is tested using a set of sentences extracted from the TREC 2007 dataset for question answering. From the experimental results, it can be induced that the semantic role labeling and named entity recognition approaches could be used as a good keyword selection mechanism. The second conclusion is that the string similarity measures proved to be a very good approach that can used in generating the distractors for an automatic multiple choice question. Also, combining the similarity measures of different algorithms would lead to generate a good distractors.

1. Introduction

Developing Automatic Question Generation (AQG) systems became one of the important research issues because it requires insights from a variety of disciplines, including, Artificial Intelligence (AI), Natural Language Understanding (NLU), and Natural Language Generation (NLG). There are two types of question formats; multiple choice questions which asks about a word in a given sentence, the word may be an adjective, adverb, vocabulary, etc., the second format is the entity questions systems or Text to Text QG that asks about a word or phrase corresponding to a particular entity in a given sentence. In this research the first type of question formats is covered. The traditional multiple-choice question is made up of three components, where the sentence with a gap is defined as the question sentence, the correct choice (removed word) as the key, and the other alternative choices as the distractors [1].

- _____ is the current president of Egypt
  (a) H.Mubarak   (b) A.ELsisi   (c) M.Morsi   (d)A.Mansour

The above sentence is an example of multiple choice question, the underline gap represents the word or phrase that is the correct answer, the four choices represent the true answer and three distractors . This research introduces a model for a multiple choice question generator that asks about labels extracted from the given sentence using Semantic Role Labeler (SRL) and entities extracted using Named Entity Recognizer (NER). The distractors generated for the sentence are chosen based on the string similarity between the question sentence and all other sentences in the data set. The rest of the paper is organized as follows: section 2 discusses the related work of Automatic Multiple Choice Questions (AMCQ), section 3 introduces the SRL and NER in brief, section 4 provides the different string text similarity approaches, section 5 introduces the proposed model, and section 6 shows the experimental results and evaluation, and finally section 7 introduces a conclusion and future work with some remarks.

2. Related work

In this section, a review of the previous Automatic Multiple Question Generation systems for the first question type formats mentioned in section 1 is introduced.
Authors in [2] proposed an approach for AQG for vocabulary assessment; they generated 6 types of questions: definition, synonym, antonym, hypernym, hyponym, and cloze questions. They retrieve the data from WordNet after choosing the correct sense for it. Concerning the distractor choice, the question generation system chooses distractors of the same part of speech and similar frequency to the correct answer. Four of the six computer-generated question types were assessed: the definition, synonym, antonym, and cloze questions. The percentage of questions generated for the four types were above 60% for 156 word list.
The authors of [3] introduced a prototype for an automatic quiz generation system for English text to test learner comprehension of text content and English skills. They used the semantic network to represent the relationship between a vocabulary and its context. They proposed two generators for two types of questions. The first generator is for sense comprehension of adjectives; the generator will extract adjectives from the SemNet of a given text as questionnaire vocabularies and form multiple-choice cloze questions. The right answer is substituted by the synonym or a similar adjective of the applied sense of the questionnaire adjective from WordNet. The second generator is for anaphor comprehension, a learner must integrate these subnets by connecting each anaphor with its antecedents. The generator identifies the antecedent of an anaphor and form a

Adopting the Track of Phrase: An Psychological Symphony within **Automatic Multiple Choice Question Generation System For**

In a global eaten by screens and the ceaseless chatter of fast communication, the melodic beauty and psychological symphony created by the published word usually disappear into the backdrop, eclipsed by the constant noise and interruptions that permeate our lives. Nevertheless, set within the pages of **Automatic Multiple Choice Question Generation System For** a wonderful fictional prize filled with raw emotions, lies an immersive symphony waiting to be embraced. Crafted by an elegant composer of language, this captivating masterpiece conducts viewers on a mental journey, skillfully unraveling the hidden songs and profound impact resonating within each cautiously constructed phrase. Within the depths with this moving evaluation, we will examine the book is main harmonies, analyze their enthralling publishing model, and submit ourselves to the profound resonance that echoes in the depths of readers souls.

Automatic Multiple Choice Question Generation System For Introduction

Automatic Multiple Choice Question Generation System For Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Automatic Multiple Choice Question Generation System For Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Automatic Multiple Choice Question Generation System For : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Automatic Multiple Choice Question Generation System For : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Automatic Multiple Choice Question Generation System For Offers a diverse range of free eBooks across various genres. Automatic Multiple Choice Question Generation System For Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Automatic Multiple Choice Question Generation System For Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Automatic Multiple Choice Question Generation System For, especially related to Automatic Multiple Choice Question Generation System For, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Automatic Multiple Choice Question Generation System For, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Automatic Multiple Choice Question Generation System For books or magazines might include. Look for these in online stores or libraries. Remember that while Automatic Multiple Choice Question Generation System For, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local

library offers eBook lending services. Many libraries have digital catalogs where you can borrow Automatic Multiple Choice Question Generation System For eBooks for free, including popular titles.Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books.Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Automatic Multiple Choice Question Generation System For full book , it can give you a taste of the authors writing style.Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Automatic Multiple Choice Question Generation System For eBooks, including some popular titles.

FAQs About Automatic Multiple Choice Question Generation System For Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Automatic Multiple Choice Question Generation System For is one of the best book in our library for free trial. We provide copy of Automatic Multiple Choice Question Generation System For in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Automatic Multiple Choice Question Generation System For. Where to download Automatic Multiple Choice Question Generation System For online for free? Are you looking for Automatic Multiple Choice Question Generation System For PDF? This is definitely going to save you time and cash in something you should think about.
