Chapter Three Strategic Management:

The Paradoxical Foundation of Strategic Management Andreas Rasche, 2007-10-25 This book offers a systematic critique of the scientific discourse of strategic management. It uncovers scholars' unquestioned assumptions and shows that by upholding these assumptions, researchers obscure the paradoxical nature of strategic reasoning. To uncover the paradoxes of strategic management, the author refers to the philosophy of Jacques Derrida. He exposes the paradoxes that inevitably occur when theorizing about corporate strategy along the dimensions strategy context, process, and content, and shows how these paradoxes can enrich future thinking about strategic problems. The analysis is completed by a discussion of theoretical and practical implications which highlight the need to research strategy not as something an organization has but as something an organization does. Such a practice perspective gives reference to the paradoxical ground that strategic management rests on and enriches scholars' ability to reflect on practitioners' tasks while doing strategy in organizations. Implanting

Strategic Management H. Igor Ansoff, Daniel Kipley, A.O. Lewis, Roxanne Helm-Stevens, Rick Ansoff, 2018-10-26 Coming more than 25 years after the last edition, this edition of the groundbreaking Ansoff work on the concepts and practical implementation of strategic management provides up-to-date case studies and simplified figures and offers a comprehensive approach to guiding firms through turbulent environments. In this age of digital transformation, the ability to respond quickly and strategically to unpredictable change can determine the success or failure of the firm. As an organization becomes more successful at implementing change, the ability to respond to changes in the environment will be entrenched in its culture. This book is based on a strategic success model which demonstrates how to optimize a firm's performance. For managers, students, and researchers wanting a step-by-step methodology on how to analyze a firm, this book will serve as an invaluable resource for thinking and acting strategically.

Conceptualizing Processes of Strategic Change. The Contribution of an Attention-Based View to Strategy Formulation
Florian Körner,2015-07-06 Master s Thesis from the year 2015 in the subject Business economics Business Management
Corporate Governance grade 1 7 University of Hannover Personal und Arbeit course International Management language
English abstract How and why do organizations change These questions have been an enduring and central quest of
management scholars and many other disciplines To find answers concerning these questions it is indisputable that
executives need to develop strategies in order to reach their goals and successfully respond and adapt to the environment
while facing change Or as Ocasio 1997 put it explaining how firms behave is one of the fundamen tal issues or questions that
define the field of strategy and the contribution it makes to the theory and practice of management When companies are
faced with environmental or internal changes some organizations start changing their strategies and others do not
Accordingly in this paper we will view strategic change as the firm s alignment with its external environment and with
internal organizational issues Hence the starting point for why organizations take action concerns the environment within

which the company operates Over the past decades managers and scholars assumed that the environment needed to be assessed observed and enacted in order to gain information process this information and to formulate a strategy to reach future goals and push the firm s overall performance The most popular assumptions within the strategy formulation literature are that the appropriateness of a firm s strategy can be defined in terms of its fit match or congruence with the environmental or organizational contingencies facing the firm Thus the environment inhibits global competitive pressure dynamics and uncertainty because of the current ongo ing internationalization of firms and their willingness and need to expand and invest in emergent markets in order to survive gain profits The ongoing revolution and upcoming research stream called Industry 4 0 which is highlighting the importance for and the influ ence of the internet e g the Internet of Things on firms is just one of the examples that shows how firms have to cope with and adapt to the complex environments Since for example the internet improves the information gathering process concerning environmental and internal organizational issues the actual scarce resource within the firm becomes the managers amount of attention that they allocate to searching for sorting through and interpreting the available information
