Conference on Materials Science Technology ICMST 2010 in December 27 28 in Jeju Island Korea Offshore Construction  
Stuart Beadnall, Simon Moore, 2021-12-29 This updated book provides practical guidance on avoiding and resolving disputes  
in the construction of offshore units and vessels including FPSOs drilling units OSVs FLNG FSRU and fixed platforms Written  
by a leading team at Stephenson Harwood it covers the entire construction process from initial concept right through to  
installation at each stage commenting on typical contract terms and offering expert advice based on real life examples With  
30 per cent of the world's oil and gas production coming from offshore areas the construction of specialist vessels to perform  
offshore operations is a crucial part of the industry However with exploration and production being performed in increasingly  
exacting locations the scope for disputes arising from cost overruns scheduling delays and technical difficulties is immense  
This second edition has been updated to include new case law as well as a new chapter on financing The existing chapters  
will feature more information on payment mechanisms and on transportation and installation This unique text will be of  
enormous assistance both to legal practitioners and offshore construction professionals including project managers  
financiers insurers and subcontractors **Project Management Handbook** David I. Cleland, William Richard King, 1988
