Training Guide Self Help Mindset:

A Guide for Developing a Culture of Caring Through Nursing Peer Mentorship Programs Deborah

Kramer,2024-08-19 This book describes in detail how to develop successful programs of nursing mentorship utilizing concepts of caring that yields a strong caring body of nurses who will be nurse thrivers as they find fulfilment and meaning in their professional commitment and will train others to do the same The mentorship program is the ticket to success that many students need to complete their degree program prevent burnout pass the nursing NCLEX examination and remain in the workforce after graduation The current attrition rate in baccalaureate nursing programs is 25 50% as is the attrition rate in the first 2 years of employment of new RN s entering the workforce Burnout is due to a lack of care and support for helping the students navigate the rigor and demands of the nursing program Creating a community of learners with caring and support creates an environment that fosters academic engagement and success The unique aspect of this book is its focus on creating a caring environment to support the students helping them develop caring skills empathy resilience and their own self care developing the skills for success beyond their educational process into the workforce This book integrates all patterns of knowing personal aesthetic empiric and ethical and provides the missing link of peer mentorship necessary to the development of resilient emancipated nursing students and graduates capable of working in community with others to establish cultures of care in health care This is a must have resource for transformation of nursing education in the next century Foreword by Dr Margaret McClure

Implementation Science to Address Health Disparities and Improve the Equitable Implementation of Proven Interventions Mechelle Sanders,Karla Galaviz,Oscar Gil,2024-02-08 As health research moves through the translation pipeline some minoritized groups have been left behind This gap in translation has worsened and or become more apparent for many during the COVID 19 pandemic Implementation science can help address this gap by guiding the equitable dissemination and implementation of health interventions healthcare policies and practices With significant research focus on implementation of proven health interventions there is a tremendous opportunity to ensure all individuals have access to and benefit from lifesaving healthcare and health interventions **Journal of the American Institute of Criminal Law and Criminology** ,1923 The Training School Bulletin ,1917 **Proceedings of the National Conference of Social Work** National Conference on Social Welfare,1886 **Proceedings of the National Conference of Social Work at the ... Annual Session Held in ...** National Conference of Social Work (U.S.). Annual Session,1922 Development of a Compassionate Leadership Program Svenja Mennerich,2024-02-29 Master s Thesis from the year 2023 in the subject Leadership and Human Resources Management Styles grade 1 0 Academy for health and sport language English abstract The demand for leadership development in corporate organizations is increasing This is strongly driven by after effects of the COVID 19 pandemic political unrest and technological advancements that lead to ongoing change High stress levels among

employees require innovative approaches in leadership This study explores the potential of a compassionate leadership program to alleviate workplace stress Compassionate leadership characterized by a balance between care for individuals and the courage to tackle challenging tasks has shown promise in improving employee satisfaction and psychological well being However there is a deficiency of research on developing and deploying a compassionate leadership program within corporate settings This study aims to bridge this gap by presenting a two phased programmatic approach that integrates group training and individual coaching the latter to encounter the problem of training transfer the extent to which learning is applied back in the workplace The first phase involves a three hour on site training focused on the dimensions and benefits of compassionate leadership The second phase includes a sixty minute one on one virtual coaching session utilizing the GROW coaching model Participants are supported by a self reflection journal to enhance individual reflection and learning successes To optimize organizational resources and time the program s total time investment has been kept to a minimum of four hours per leader This exploratory study evaluates the extent of knowledge enhancement in compassionate leadership and individual perceived training transfer following the coaching session with twenty seven leaders through pre and post surveys The training demonstrated promising outcomes exhibiting an increase in the mean value from 3.3 pre training to 4.7 post training A positive assessment of training transfer through individual coaching sessions could only be confirmed partly Insights gained from this research can guide organizations in efficiently implementing compassionate leadership programs ultimately leading to more people centered workplaces and empowering leaders to cultivate self care and overall well being The theoretical framework program development pilot deployment and evaluation phases are discussed before limitations and recommendations are addressed further To test the effectiveness and longitude of the compassionate leadership program future research is required
