The Digital Environment and Small States in Europe Viktorija Car, Marta Zorko, 2025-07-25 The Digital Environment and Small States in Europe delves into how the digital revolution intersects with global security dynamics and reshapes the geopolitical landscape. It sheds light on the geopolitical complexities inherent in the border regions of the European continent and proposes frameworks to better understand and engage with small state dynamics in international affairs. At the heart of this book is an examination of the transformative power of digitalization and virtualization, particularly pronounced in the context of small states.
