A Contract With God Analysis

Robert E. Kehoe

A Contract With God Analysis:

René Girard, Theology, and Pop Culture Ryan G. Duns, T. Derrick Witherington, 2021-08-10 In *René Girard Theology and Popular Culture* fifteen contributors consider how Girard's mimetic theory can be used to uncover and probe the theological depths of popular culture. Creative and critical engagement with Girard's theory enables the contributors to offer fresh and exciting interpretations of movies like *The Devil Wears Prada*, *Mean Girls*, *Star Wars*, television like *Hoarders*, *Cobra Kai*, classical literature and graphic novels and issues ranging from anorexia to social media. The result is a volume that establishes Girard as an innovative interpreter of culture and shows him as an invaluable guide for theologically reflecting on desire, violence, redemption, and forgiveness. Written in fresh and lively prose, the contributors demonstrate not only that Girard provides a powerful lens through which to view culture but also and more provocatively challenge readers to consider what popular culture reveals about them. Readers looking for an accessible introduction to mimetic theory and exploring its theological application will find this a welcome resource.

Contract with God Walter E. Reed, Fay Sand Reed, 1965
The American Ecclesiastical Review Herman Joseph Heuser, 1961 Is God an Economist? S. Wagner-Tsukamoto, 2009-01-30 This book offers a radical new way of approaching the Old Testament. Sigmund Wagner-Tsukamoto argues that rational, institutional, and constitutional economic lessons can be derived from the Old Testament with applications to social conflict and resolution. The book suggests that this religious text also anticipated many modern economic advances.

And God Knows the Soldiers Khaled M. Abou El Fadl, 2001-08-28 This is a substantially expanded edition of the author's seminal work *The Authoritative and Authoritarian in Islamic Discourses: A Contemporary Case Study*. Beginning with the case study of a Muslim basketball player who refused to stand up while the American national anthem was playing, the author documents the disintegration of the Islamic juristic tradition and the prevalence of authoritarianism in contemporary Muslim discourses. The author analyzes the rise of what he describes as puritan and despotic trends in modern Islam and asserts that such trends nullify the richness and diversity of the Islamic tradition. By declaring themselves the true soldiers of God and the defenders of religion, Muslim puritan movements are able to degrade women, eradicate critical thinking, and empty Islam of its moral content. In effect, the author argues, the self-declared protectors of Islam become its despots and oppressors who suppress the dynamism and vigor of the Islamic message. Anchoring himself in the rich Islamic jurisprudential tradition, the author argues for upholding the authoritativeness of the religious text without succumbing to authoritarian methodologies of interpretation. Ultimately, the author asserts that in order to respect the integrity of the Divine

laws it is necessary to adopt rigorous analytical methodologies of interpretation and to re investigate the place of morality in modern Islam

Behind the Masks of God Robert Cummings Neville,1991-02-12 Behind the Masks of God develops an abstract concept of creation ex nihilo to compare and contextualize many of the symbols and more concrete ideas of divinity in world religions The first focus is Christianity and the book is put forward as an essay in Christian theology In addition the essay asks how creation ex nihilo serves to relate Christianity to other religions particularly those of China Neville addresses both Buddhism and Christianity and to a lesser extent Taoism as test cases for the applicability of creation ex nihilo as a fundamental comparative category for connecting theistic religions with non theistic ones

Trusting Others, Trusting God Sheela Pawar,2013-06-28 Trusting Others Trusting God is an investigation of the concepts of moral and religious trust The question of why or how it is rational to trust anyone has been the typical focus of philosophers with an underlying assumption that trust must be justified In most cases trust even or perhaps especially religious trust is portrayed as irrational Sheela Pawar argues that a grammatical investigation of the concept of trust can help rectify this mistreatment
