

## APUSH Period 5: 1844- 1877: Everything You Need to Know!

### SUMMARY: Unit 5 Topic 2

- The phrase “manifest destiny” was coined by newspaper editor John O’Sullivan in 1845, who wrote that America had a god-given right to possess the entire continent
- Americans expanded westward for three main reasons:
  - 1) Needed more access to minerals and natural resources
    - California Gold Rush of 1848: discovery of gold in California led people from the east to rush to stake their claim in California
    - Discoveries of gold and silver in Colorado, the Dakotas and Nevada prompted similar westward movement
  - 2) Sought new economic and homestead opportunities
    - Preemption Acts of the 1830s and ‘40s made large swaths of cheap land available to those who would set up a homestead and farm
    - Migrations were made largely by the middle class, since the poor didn’t have the resources to move westward
  - 3) Religious refuge
    - Upwards of 70,000 Mormons migrated to the Utah territory due to persecution surrounding their practice of polygamy
- Texas territory:
  - Americans began settling in Texas in the 1820s- by 1830, 3x as many Americans as Mexicans lived in the Texas territory
  - Most immigrants were Southern, Protestant, and slave-owning, which was problematic because Mexico had two requirements of its immigrants: 1) convert to Roman Catholicism and 2) don’t practice slavery! Texans ignored these; Mexico closed borders to immigration, which Texans also ignored
  - 1834: Change in Mexican government; new dictator sought to clamp down on the regulations on the books regarding American immigrants
    - Texan-Americans revolted against the new government under the leadership of Sam Houston and declared Texas to be an independent republic in 1836
    - Mexico sent forces north to put down this rebellion; won a stunning victory at the Alamo, killing every American who defended it
    - Houston and his army engaged Mexicans in the battle of San Jacinto, where they captured the Mexican general and forced him to sign a treaty granting Texas independence (which he did not have the authority to do)
    - Texas then claimed its independence, which Mexico did not recognize

Stampede Learning is here to help with a book packed with tips, techniques, and exercises to help you CRUSH it on the writing sections of the APUSH exam. With over half of your score on the APUSH exam being based on your written responses, it's a great opportunity to score big for those who are proficient in writing. However, it may seem daunting to understand how to gain proficiency in the technical form of writing expected for the AP exam. Additionally, a tremendous amount of information is covered in a U S history course. These facts can add up to big challenges as you work through your AP class and prepare for the exam. This writing guide gives you a breakdown of the types of essay questions that appear on the APUSH exam. We help you learn solid writing techniques to use in your responses to the SAQ, DBQ, and LEQ prompts on the exam. This guide includes a description of SAQ, LEQ, and DBQ writing prompts, including similarities and differences, and a rundown of what AP readers are looking for when they read your responses. Summaries of events, trends, and people that are essential to know for the exam. Exercises to reinforce your understanding of key dates and events and how they relate to the exam question. Step-by-step guidance in analyzing DBQ documents systematically. Practice questions with sample answers to use as a model and compare your answers to after you complete them.

**FOR INSTRUCTORS:** Because our APUSH Writing Guide is in workbook format, each student should obtain her own copy. This book is best used as an instructor-guided resource, but it can easily be used for self-guided test prep by motivated independent learners. Instructors love using this book in the classroom because grading and offering feedback on student writing is a time-consuming process; the faster students become strong writers, the more manageable the teacher's essay grading workload becomes.
