Information Technology and Business Alignment in Malaysian SMEs Husnayati Hussin, 2011

Information and Communication Technology and Small and Medium Sized Enterprises Diane Poulin, Sébastien Tran, 2010

The arrival of Information and Communication Technology may play a role in restoring competitiveness since these technologies are also a factor in relaxing the constraints specific to SMEs. ICT makes a number of services possible in a large range of processes and transactions within and between companies. Internally, ICT applications can improve knowledge and information management practices; they can also allow more rapid and more reliable transactions between businesses B2B and between businesses and consumers B2C. They are equally quite effective in improving external business communications and service quality for both new and existing clients. They also appear to be a source of competitive advantage for SMEs under certain conditions. Few studies have focused on the ways that SMEs can use ICT to improve and defend their competitive positions. This book provides a synthesis of the advantages of ICT for SMEs. Seven chapters illustrate the technologies used in such companies. Each of these chapters provides a theoretical and/or practical view of the way that SMEs can use ICT. This book is an indispensable reference for both academics and for practitioners.

Nations Publications,2017-03-06 Standards and regulations are an integral if easily overlooked part of our daily life. They determine whether a plug fits into a socket whether food is safe for human consumption or whether a bank is allowed to take deposits. They are also an indispensable part of international trade. Using new evidence from ITC databases this report reveals how standards and regulations are holding SME competitiveness back but crucially what SMEs and other stakeholders can do to make standards and regulations work for and not against SMEs. In this report advice targeted at SME managers is presented as well as how Trade and Investment Support Institutions and policymakers can influence the business environment to boost competitiveness and integration into global markets
