First Steps in Teaching Number John Roscoe Clark, Arthur Sinton Otis, Caroline Hatton, 1929 **Maths** Sean McArdle, 2002 Blueprints is the number one resource series for teachers and schools that offers complete curriculum coverage excellent photocopiable material and unbeatable value The books have extensive coverage of core and foundation subjects for National Curriculum and other UK curricula and are written specifically for the key stage you teach

Understanding Numbers in Elementary School Mathematics Hongxi Wu, 2011 This is a textbook for pre service elementary school teachers and for current teachers who are taking professional development courses By emphasizing the precision of mathematics the exposition achieves a logical and coherent account of school mathematics at the appropriate level for the readership Wu provides a comprehensive treatment of all the standard topics about numbers in the school mathematics curriculum whole numbers fractions and rational numbers Assuming no previous knowledge of mathematics the presentation develops the basic facts about numbers from the beginning and thoroughly covers the subject matter for grades K through 7 Every single assertion is established in the context of elementary school mathematics in a manner that is completely consistent with the basic requirements of mathematics While it is a textbook for pre service elementary teachers it is also a reference book that school teachers can refer to for explanations of well known but hitherto unexplained facts For example the sometimes puzzling concepts of percent ratio and rate are each given a treatment that is down to earth and devoid of mysticism The fact that a negative times a negative is a positive is explained in a leisurely and comprehensible fashion

Maths and ICT in the Primary School Richard English, 2013-05-24 By clearly outlining how ICT can enhance and improve children s learning this book shows how to unleash the full potential of ICT within the classroom Stimulating useful and free of jargon the book provides many practical examples to show teachers where when and how ICT can be used effectively within their maths teaching It provides advice on teaching creatively choosing ICT resources differentiation assessing ICT making the most of adult support Rooted in the practical realities of the classroom this book will support both trainee and qualified teachers in providing rich and creative maths experiences through the use of ICT *Counting and Measuring* Hermann von Helmholtz, 1930 [DITA for Print](#) Leigh W. White, 2017-02-16 As DITA has become more and more popular demand has increased for tools that can provide high quality PDFs from DITA content The DITA Open Toolkit provides a basic PDF capability but nearly any real world application will require customization Leigh White s book *DITA for Print* has become the go to reference for building a print customization plugin for the DITA Open Toolkit This second edition covers Open Toolkit version 2 including customizing the DITA 1.3 troubleshooting topic type localization strings bookmarks and the new back cover functionality *DITA for Print* is for anyone who wants to learn how to create PDFs using the DITA Open Toolkit without learning everything there is to know about XSL FO XSLT or XPath or even about the DITA Open Toolkit itself *DITA for Print* is written for nonprogrammers by a non programmer and although it is written for people who have a good

understanding of the DITA standard you don't need a technical background to get custom PDFs up and running quickly
