Why Startups Fail Tom Eisenmann, 2021-03-30 If you want your startup to succeed you need to understand why startups fail Whether you're a first time founder or looking to bring innovation into a corporate environment *Why Startups Fail* is essential reading Eric Ries founder and CEO of LinkedIn and New York Times bestselling author of *The Lean Startup* and *The Startup Way* Why do startups fail That question caught Harvard Business School professor Tom Eisenmann by surprise when he realized he couldn't answer it So he launched a multiyear research project to find out In *Why Startups Fail* Eisenmann reveals his findings six distinct patterns that account for the vast majority of startup failures

Bad Bedfellows Startup success is thought to rest largely on the founder's talents and instincts But the wrong team investors or partners can sink a venture just as quickly

False Starts In following the oft cited advice to fail fast and to launch before you're ready founders risk wasting time and capital on the wrong solutions

False Promises Success with early adopters can be misleading and give founders unwarranted confidence to expand

Speed Traps Despite the pressure to get big fast hypergrowth can spell disaster for even the most promising ventures

Help Wanted Rapidly scaling startups need lots of capital and talent but they can make mistakes that leave them suddenly in short supply of both

Cascading Miracles Silicon Valley exhorts entrepreneurs to dream big But the bigger the vision the more things that can go wrong

Drawing on fascinating stories of ventures that failed to fulfill their early promise from a home furnishings retailer to a concierge dog walking service from a dating app to the inventor of a sophisticated social robot from a fashion brand to a startup deploying a vast network of charging stations for electric vehicles Eisenmann offers frameworks for detecting when a venture is vulnerable to these patterns along with a wealth of strategies and tactics for avoiding them A must read for founders at any stage of their entrepreneurial journey

Why Startups Fail is not merely a guide to preventing failure but also a roadmap charting the path to startup success 99

Reasons why Startups fail Omar Mohout, Carine Lucas, 2017-07-07 Learn from the mistakes of others You can never live long enough to make them all yourself Startup ideas inspire hundreds of thousands of entrepreneurs all over the world On the flip side the majority of entrepreneurial ventures fail Have you ever wondered what the catalyst for such failure is Startup failures are complex Most of them are not caused by stupid or simple mistakes So be careful when you conclude Startup X failed because of Y Therefore I should avoid doing Y in my own startup It is not that simple Startups fail because of a combination of factors and causes some of which are almost impossible to put a finger on This book is aimed at identifying reasons that can lead even great ideas to complete failure It also presents how you can make your way around them earning

The Tech Entrepreneur's Survival Guide: How to Bootstrap Your Startup, Lead Through Tough Times, and Cash In for Success Bernd Schoner, 2014-05-16 Most technology startups never make it to the funding stage and only a small percentage of those that are venture backed generate a positive return for their investors. An even smaller number of startup founders enjoy a truly prosperous exit. Bernd Schoner cofounded his tech startup during the dot com bust, navigated it through market crises and internal turmoil, brought it through the global financial meltdown intact, and eventually sold it to a multibillion dollar multinational public technology company. In *The Tech Entrepreneur's Survival Guide*, Bernd shares what he learned and what he wished he knew at the time. He explains the major phases in a technology company's life cycle, helping entrepreneurs avoid common pitfalls and survive crises when they strike. He guides readers from the initial bootstrapping process through venture capital financing and provides valuable advice on how to sell a technology company profitably even in a challenging economic environment. Every chapter presents solutions to realworld issues that could otherwise have fatal consequences for a tech venture. Aspiring tech entrepreneurs will learn to set up shop, build the team, assemble necessary startup assets including technology and intellectual property, get legal and financial affairs in order, secure capital, ask for money, nail the term sheet, ask for more money, get out, know when to sell, who to sell to, and how to make it a happy exit for all stakeholders including the employees. Written with deep insight, refreshing candor, and a dash of humor, this comprehensive guide to the often harsh realities of startup life is indispensable for entrepreneurs at any stage.

PRAISE FOR THE TECH ENTREPRENEUR'S SURVIVAL GUIDE A genuine narrative from the field with battle scars and self-reflection. Reading this book will help you avoid many pitfalls. Nicholas Negroponte, professor at the Massachusetts Institute of Technology, Media Lab. There's a lot of great insights and practical advice for the entrepreneur in this book, stuff you normally won't read or hear unless you buy some hard-bitten company founder a few drinks. If you are launching a technology startup, reading this book is the thing you should do first. Mark Roberti, founder and editor in chief of RFID Journal. I wish I had read Bernd's book when we founded The Echo Nest. Bernd touches on all the major issues in the initial formation stages of a tech company and many of the problems that come up when the company matures. If you are thinking of founding your own tech startup, read this book first. Tristan Jehan, cofounder of The Echo Nest. A visceral, behind-the-scenes guide to technology entrepreneurship. Bernd tells it like it is and presents a universe of solutions to tricky startup situations that can significantly improve the odds of success. Indispensable. Larry Begley, cofounder and managing director at 406 Ventures. The best-laid business plans never survive contact with reality. Bernd has provided a comprehensive guide to anticipating the unexpected in the life of a startup. Neil Gershenfeld, professor and director of the Massachusetts Institute of Technology Center for Bits and Atoms.
