Journal Of Globalization And Development:

The Globalization and Development Reader J. Timmons Roberts, Amy Bellone Hite, Nitsan Chorev, 2014-12-31 This revised and updated second edition of *The Globalization and Development Reader* builds on the considerable success of a first edition that has been used around the world. It combines selected readings and editorial material to provide a coherent text with global coverage reflecting new theoretical and empirical developments. Main text and core reference for students and professionals studying the processes of social change and development in third world countries. Carefully excerpted materials facilitate the understanding of classic and contemporary writings. Second edition includes 33 essential readings including 21 new selections. New pieces cover the impact of the recession in the global North, global inequality and uneven development, gender, international migration, the role of cities, agriculture and on the governance of pharmaceuticals and climate change politics. Increased coverage of China and India help to provide genuinely global coverage and for a student readership the materials have been subject to a higher degree of editing in the new edition. Includes a general introduction to the field and short insightful section introductions to each reading. New readings include selections by Alexander Gershenkron, Alice Amsden, Amartya Sen, Anne Marie Slaughter, Cecile Jackson, Dani Rodrik, David Harvey, Greta Krippner, Kathryn Sikkink, Leslie Sklair, Margaret E. Keck, Michael Burawoy, Nitsan Chorev, Oscar Lewis, Patrick Bond, Peter Evans, Philip McMichael, Pranab Bardhan, Ruth Pearson, Sarah Babb, Saskia Sassen and Steve Radelet.

Globalisation, Economic Development & the Role of the State Ha-Joon Chang, 2003-07 Ha Joon Chang evaluates the role of the state in economics and development. In this collection of essays he reviews theories and practices of state intervention as they have developed over two centuries of modern capitalism. He develops an institutionalist approach to the role of the state in economic change and examines the issues involved in particular settings including industrial policy, trade policy, intellectual property rights, regulation and strategies towards transnational corporations. He mounts a sophisticated theoretical and historical case for the continuing essential and constructive roles which the state can and must play in economic development.

Globalization and Development Volume II Shigeru Otsubo, 2015 Globalization and Development is a cross national study on the interstate dispersion of the impacts to growth, inequality and poverty that international economic integration provides to the economies of the developing countries. Volume II Part III presents the country case studies of Bhutan, China, Indonesia, Japan, Thailand, Vietnam and Ghana with their respective experiences of development under globalization. This book intends to serve as a unique and comprehensive guide for those in the international development community on the subjects of diversified development paradigms, paths under globalization and other challenges in the post MDGs era.

Tanzanian Journal of Population Studies and Development ,2005 Globalization, Development and The State
Jørgen Dige Pedersen,2008-08 This book presents the story of how India and Brazil have managed the challenges of economic globalization since 1990 Using an innovative combination of theories of developmental states with theories on the changing nature of global capitalism the analysis presented here explains how India and Brazil have successfully managed those challenges that the opening of their economies has introduced and their different degrees of success The key to their economic performance lies in the establishment of new and more intensive forms of business state collaboration which ensures that policy initiatives have progressively been adapted to the interests and capabilities of the domestic business class The analysis points to a new theoretical perspective on developmental states In an increasingly knowledge intensive global economy developmental states acquire new forms that are more collaborative and democratic in contrast to earlier authoritarian states They also need strong inputs of an intellectual nature making authoritarian solutions less likely to succeed Book cover
