Java Interview Questions and Answers Navneet Singh, Java interview questions often cover a broad range of topics including core Java concepts object oriented programming principles data structures algorithms Java APIs and best practices Here are some common Java interview questions along with sample answers

What is Java Java is a high level object oriented programming language developed by Sun Microsystems now owned by Oracle It is designed to be platform independent allowing developers to write code once and run it on any Java enabled platform without recompilation

What are the main features of Java Some of the main features of Java include Platform independence Java programs can run on any platform with a Java Virtual Machine JVM Object oriented Java supports object oriented programming principles such as encapsulation inheritance and polymorphism Robustness Java provides strong memory management exception handling and type checking mechanisms to ensure robust and reliable code Multi threading Java supports concurrent execution of multiple threads allowing developers to write scalable and responsive applications Portability Java programs are portable across different platforms making them suitable for developing cross platform applications

What is the difference between JDK JRE and JVM JDK Java Development Kit is a software development kit that includes tools for developing and compiling Java applications such as the Java compiler javac and the Java runtime environment JRE JRE Java Runtime Environment is a runtime environment that provides the necessary libraries and components to run Java applications It includes the JVM Java Virtual Machine and core Java libraries JVM Java Virtual Machine is an abstract computing machine that provides an execution environment for Java bytecode It interprets and executes Java bytecode instructions and manages memory threads and other runtime aspects of Java applications

What is the difference between abstract class and interface in Java An abstract class is a class that cannot be instantiated and may contain abstract methods methods without a body as well as concrete methods It can also contain instance variables and constructors Subclasses of an abstract class must implement all abstract methods or be declared abstract themselves An interface is a reference type in Java that defines a contract of methods that a class must implement It can only contain constant variables and method signatures without method bodies A class can implement multiple interfaces but can only

extend one abstract class What is the difference between Array List and LinkedList in Java Array List is implemented as a dynamic array meaning that it stores elements in a contiguous memory location and supports random access to elements using an index It is efficient for accessing elements by index but less efficient for inserting or removing elements from the middle of the list LinkedList is implemented as a doubly linked list meaning that it stores elements as nodes with references to both the previous and next nodes It is efficient for inserting or removing elements from the middle of the list but less efficient for random access These are just a few examples of Java interview questions Depending on the role and level of the interview questions may cover more advanced topics such as design patterns concurrency memory management and performance optimization It s important to thoroughly prepare for interviews by reviewing core Java concepts practicing coding exercises and gaining hands on experience with Java programming *Top 50 Java 8 Stream Interview Questions and Answers* Knowledge Powerhouse,2018-05-04 Top 50 Java 8 Stream Interview Questions Updated 2018 version This book contains tricky and coding Java 8 Stream interview questions that an interviewer asks It is a compilation of advanced Java 8 Stream interview questions after attending dozens of technical interviews in top notch companies like AirBnb Google Ebay Amazon etc How will this book help me By reading this book you do not have to spend time searching the Internet for Java 8 Stream tricky interview questions We have already compiled the list of the most popular and the latest Java 8 Stream Interview questions Are there answers in this book Yes in this book each question is followed by an answer So you can save time in interview preparation What is the best way of reading this book You have to first do a slow reading of all the questions in this book Once you go through them in the first pass mark the questions that you could not answer by yourself Then in second pass go through only the difficult questions After going through this book 2 3 times you will be well prepared to face a technical interview for Software Engineer position in Java 8 Stream What is the level of questions in this book This book contains questions that are good for a Associate Software engineer to a Principal Software engineer The difficulty level of question varies in the book from a Fresher to an Experienced professional What are the sample questions in this book What is a Stream in Java 8 What are the differences between Stream and Collections in Java What are the different ways to create Streams in Java What is the difference between intermediate and terminal operation in Java Stream What is a non interfering function in Java What is a stateless function in Java What are the two conditions for a Lambda function to be used in a Stream What are the different kinds of Streams in Java How will you create a Stream for using in for loop to count from 1 to 100 What is wrong with this Stream code and how will you fix it What is Lazy Loading in Stream What is the use of anyMatch operation in a Stream Why order of intermediate operations is important in Java stream Can we reuse a Stream in Java 8 What is the use of collect operation on Stream in Java 8 How can we get the average of values of elements of a Stream in Java 8 How can we get the summary of max average sum etc values of elements of a Stream in Java 8 How can we get the comma separated list of all elements of a Stream in Java 8 What is the use of map operation on Stream in Java 8 What is the
