Alphabet Learning Workbook Global Trend

Wolfgang Guggemos

Alphabet Learning Workbook Global Trend:

Teaching and Learning Language: Current Trends and Practices (Penerbit USM) Ambigapathy Pandian, Sunny Tan Siew Bek, Shaik Abdul Malik Mohamed Ismail, 2014 This book represents a collection of papers that relate to the challenges and problems posed by the ever changing and diversified nature of today's classroom. The papers discuss and demonstrate methodologies and learning strategies and in the process recommend effective practices that are practical and open to adaptation for different teaching and learning contexts. They range from suggestions on how to exploit information technology resources to individual or specific case studies. These case studies report on a variety of contextual issues and problems that are specified to particular learning contexts. This book therefore thus not only offers examples of tried and tested teaching strategies but also offers useful insights into specific sociocultural problems that are experienced by learners as well as teachers and interested stakeholders in particular settings and countries. The papers offer a comprehensive documentation of past as well as present problems faced by teachers, policy makers and students and discuss ways and strategies of overcoming such problems such that the teaching and learning process is not only enhanced but made more meaningful and fulfilling to both teachers and learners. The inherently global perspective of the papers in this book makes it an enriching compendium.

Learning, 1978

Japanese for Teens J.R. Maroney, 2012-06-01 This workbook is for beginners and makes learning Japanese fun. It has been created specifically for young adults whose native language is English. Each lesson consists of three sections: Vocabulary, Grammar, and Practice. Emphasis is placed on contemporary Japanese including frequently used Manga and Anime phrases. Japanese for Teens can be used as the primary teaching text or as a supplement to other texts. Initially, students are expected to learn the basic 46 hiragana characters before starting lesson one. Associations to help them learn the hiragana are included. Students are given a chance to learn contemporary vocabulary at the start of each lesson. Furthermore, students have fun with the material by creating Manga stories in each lesson. Because students are encouraged to write in the book, we do not recommend buying used versions. Note: Although part of cover may appear blurry in Lulu's preview, the actual printed product has no issues.
