1. Mahmood is examining a device for digital evidence. There are two types of evidence he is looking for. Which type of evidence will prove that his client is not guilty?

- a. Inculpatory evidence
- b. Exculpatory evidence
- c. Miaculpatory evidence
- d. Discretionary evidence

**ANSWER:**

b

**RATIONALE:**

Mahmood is looking for exculpatory evidence which is evidence that tends to show that a defendant is not guilty of the crime they have been charged with. This type of evidence can help to exonerate or clear the defendant of the charges. Exculpatory evidence can include physical evidence, witness statements, or other types of evidence that support the defendant's innocence.

2. What are the main differences between public-sector investigations and private-sector investigations?

- a. Private-sector investigations involve government agencies responsible for criminal investigations and prosecution. Public-sector investigations focus more on policy violations.
- b. Private-sector investigations can become criminal investigations and public-sector investigations can become civil investigations depending upon the circumstances.
- c. Public-sector investigations involve government agencies responsible for criminal investigations and prosecution. Private-sector investigations focus more on policy violations.
- d. The private sector can ignore criminal investigations, and the public sector can ignore civil investigations.

**ANSWER:**

b, c

**RATIONALE:**

In general, the main difference between public-sector and private sector investigations is that the public-sector investigations involve government agencies responsible for criminal investigations and prosecution. Government agencies range from municipal, county, and state or provincial police departments to federal law enforcement agencies. These organizations must observe legal guidelines of their jurisdictions. Private-sector investigations focus more on policy violations. However, criminal acts, such as corporate espionage, can also occur. So, although private-sector investigations often start as civil cases, they can develop into criminal cases; likewise, a criminal case can have implications leading to a civil case.
