New English File Clive Oxenden, Christina Latham-Koenig, 2005 [English File Intermediate Workbook with Key](#), 2025-01-23 **English File: Upper-Intermediate: Workbook with Key** Oxford Editor, 2020-01-09 English File's unique lively and enjoyable lessons are renowned for getting students talking. In fact, 90% of English File teachers we surveyed in our impact study found that the course improves students' speaking skills. How will English File get your students talking? Kontra, 2016-09-23 Deaf and hard of hearing students form a specific group of foreign language learners. They need to use foreign languages just like their hearing peers if they want to enjoy the same benefits of globalization and technical advancements of today, yet they cannot take part in the same foreign language education. As sign language users, lip readers or persons relying on hearing aids or cochlear implants in their everyday communication, they need special support in learning a foreign language. This book has been written by teachers and researchers involved in teaching English as a foreign language (EFL) to deaf and hard of hearing students in various different European countries including the Czech Republic, France, Hungary, Norway, Poland and Serbia. The chapters mirror both the authors' personal journeys through this field and give insight into various aspects of empirical research into the foreign language acquisition of hearing-impaired learners. They discuss mainly the issue of specific methodology for teaching EFL: vocabulary, grammar, reading, writing and speaking to deaf and hard of hearing persons and the challenge of effective communication during the classes via sign language, cued speech or the oral approach. Special chapters are also devoted to EFL teachers' experience in special schools for the deaf. Educators interested in practical advice, responses to challenges and worked-out solutions to problems will particularly welcome this book as a useful source of ideas. It will also help novice teachers embarking on their careers in English language education for deaf and hard of hearing children and adults. *Teaching and Researching English Accents in Native and Non-native Speakers* Ewa Waniek-Klimczak, Linda R. Shockey, 2012-12-14 Second language phonology is approached in this book from the perspective of data-based studies into the English sound system as used by native and non-native speakers of the language. The book offers a unique combination of psycholinguistic, sociolinguistic and pedagogical approaches with individual contributions investigating the effect of selected

conditioning factors on the pronunciation of English With all the richness of approaches it is a strong phonetic background that unifies individual contributions to the volume Thus the book contains a large body of original primary research which will be of interest to experienced scientist practitioners and lecturers as well as graduate students planning to embark on empirical methods of investigating the nature of the sound system
