*Linear And Nonlinear Optimization Using Spreadsheets:*

*Examples For Prescriptive, Predictive And Descriptive Analytics* Michael J Brusco, Stephanie Stahl, 2024-10-08 The use of spreadsheets to obtain solutions to a diverse array of examples offers a reader friendly way of addressing a topic optimization that can sometimes be viewed as intimidating Many people are readily familiar with spreadsheets and how they work yet are apt to be unaware of the incredible power of Excel for solving some rather complex optimization problems A major goal of the book is to sell readers on why it is so important to understand optimization and a large collection of examples for a wide range of business decision making areas e g production planning and scheduling workforce planning and scheduling location and supply chain distribution location of emergency services assembly line balancing vehicle routing project scheduling revenue management advertising product design payout schedules productivity measurement investment portfolio

management sports league scheduling ranking models etc affords a practical mechanism for achieving that goal Another important contribution of the book is that it provides coverage of the mechanics of some common yet sophisticated statistical methods regression logistic regression discriminant analysis factor analysis and cluster analysis which are often opaque to many users of such methods

Implementing Large-Scale Optimization Models in Excel Using VBA. Larry J. LeBlanc,Michael Galbreth,2008

We discuss the importance of spreadsheets for optimization modeling including a description of their limitations for large scale problems We then describe efficient ways to overcome these limits Our approach makes use of Excel s standard functionality but augments Excel with its programming language Visual Basic for Applications VBA where necessary We show how using VBA within Excel to generate and solve large linear programs LPs overcomes many of the problems inherent in purely spreadsheet based models and greatly increases model usability The techniques described were instrumental in our successful development of a large scale procurement distribution LP that resulted in savings of approximately 1 000 000 in the first year with even greater annual savings expected in the future
