Origami In Engineering And Architecture:

Architecture Education in the Changing World Madhumita Roy, Jayashree Deshpande, Nandini Kulkarni, 2025-04-30 This International Conference aimed to provide a platform for bringing out research and innovative ideas to shape education for the future of the built environment in the context of emerging technologies and environments and the National Education Policy. The conference served as an important platform for reflection, dialogue, and action. It aimed to explore intersections bringing together educators, practitioners, researchers, and students from around the world to engage in a dialogue that transcends traditional boundaries and encourages interdisciplinary collaboration to explore how architectural education can and should evolve in response to the global challenges. The themes of this conference invited deliberation on established pedagogies, new technologies, and the pressing need for sustainability in design. It encouraged perspectives on the role of architects in society and the forms of knowledge and skills that future professionals would require to shape a better, more resilient world.

Structures and Architecture Paulo J. Cruz, 2013-06-27 Although the disciplines of architecture and structural engineering have both experienced their own historical development, their interaction has resulted in many fascinating and delightful structures. To take this interaction to a higher level, there is a need to stimulate the inventive and creative design of architectural structures and to persuade
