Cognitive Aspects of Visual Languages and Visual Interfaces M.J. Tauber,D.E. Mahling,F. Arefi,1994-10-26 This volume contains selected papers from the 10th Interdisciplinary Workshop in Informatics and Psychology which had as its theme Cognitive Aspects in Visual Languages and Interfaces Visual languages in general visual programming languages in particular and graphical or visual user interfaces are increasingly regarded as important improvements for the interaction between people and artifacts Visual and graphical user interfaces have already a history of a number of years in terms of research and development The focus on visual languages and visual programming languages however is more recent The development of graphical user interfaces was accompanied and reinforced by psychological research but visual languages are still mainly inventions of designers and not designed on the basis of principles derived also

from knowledge of psychology or other behavioral sciences The presentations and discussions at the workshop showed increasing interest in paradigms of visual languages and their psychological foundation Visual languages and interfaces must be seen as means to support and enhance representation application and processing knowledge visually The study of the cognitive aspects in visual languages and interfaces is thus an important part of Human Computer Interaction as a discipline concerned with the design evaluation and implementation of interactive computer systems for human use and with the study of major phenomena surrounding them definition of HCI in the ACM SIGCHI Curricula for Human Computer Interaction This book will stimulate future research in the area of Human Computer Interaction and Visual Languages Design Methods and Theories ,1980 Science Abstracts ,1929 **Journal of the Institution of Petroleum Technologists** Institution of Petroleum Technologists (Great Britain),1927 Vols for 19 include abstracts Journal of the Institution of Petroleum Technologists Institute of Petroleum (Great Britain),1927 Vols 7 include Abstracts which beginning with v 9 form a separately paged section and from v 17 on have separate title pages
