Career Planning For Teens Global Trend:

Handbook of Career Development Gideon Arulmani, Anuradha J. Bakshi, Frederick T. L. Leong, A. G. Watts, 2014-02-08

This book is focused on work occupation and career development themes that are fundamental to a wide range of human activities and relevant across all cultures. Yet theorizing and model building about this most ubiquitous of human activities from international perspectives have not been vigorous. An examination of the literature pertaining to career development counseling and guidance that has developed over the last fifty years reveals theorizing and model building have been largely dominated by Western epistemologies. Some of the largest workforces in the world are in the developing world. Career guidance is rapidly emerging as a strongly felt need in these contexts. If more relevant models are to be developed, frameworks from other cultures and economies must be recognized as providing constructs that would offer a deeper understanding of career development. This does not mean that existing ideas are to be discarded. Instead, an integrative approach that blends universal principles with particular needs could offer a framework for theorizing research and practice that has wider relevance. The central objective of this handbook is to draw the wisdom and experiences of different cultures together to consider both universal and specific principles for career guidance and counseling that are socially and economically relevant to contemporary challenges and issues. This book is focused on extending existing concepts to broader contexts as well as introducing new concepts relevant to the discipline of career guidance and counseling. **Career**

Exploration and Development in Childhood Mark Watson, Mary McMahon, 2016-10-04. *Career Exploration and Development in Childhood* presents chapters from leading figures in the field of childhood career exploration and development. The first substantive edited collection of its kind, this book makes an important contribution to our understanding of children's career development. It provides cutting edge theory, research, and practice for understanding and fostering career exploration and development during childhood across a wide spectrum of international settings. Divided into five sections that reflect the authors' perspectives on critical aspects of children's career development, chapters include relevant research as well as the practical application of concepts, issues, and strategies for career interventions with children. The book includes sequential sections on theory, research, contextual influences, assessment, and the facilitation of career exploration and development. Perspectives from both developed and developing world contexts consider traditional approaches to career education as well as career development learning in childhood. The collaborations evident in the chapter authorship reflect the significant internationalisation of the field of child career development. The book synthesises key issues and presents innovative recommendations that will not only enhance our understanding of children's career development but will set the agenda for the future of the field. It will be of key interest to researchers, academics, and postgraduate students in the fields of career development, career guidance, education, childhood, child development, and counselling. *Contemporary Theories of Career Development* Nancy Arthur, Mary McMahon, 2018-11-12. In response to the

complexities of social change that have become evident in the 21st century there is a need for innovation in career theory that takes into account new perspectives and the fluctuating contexts of people's lives Contemporary Theories of Career Development International Perspectives brings together the contributions of theorists from around the globe whose work represents current cutting edge international approaches to career development theory Emphasizing the new perspectives that are needed for this field to be relevant in a contemporary era this book considers the cultural applications of theory in a diverse range of populations Structured in three parts with chapters written by internationally renowned leaders in the field this collection features a critical examination of the current history of the field thirteen theory chapters each enhanced by a case study and a final chapter that draws the previous chapters together through key themes broadening the reader's knowledge of theoretical perspectives and their interrelations Each theory chapter author comments on and critiques his or her own theory inviting readers to engage with these theories at both a practical and theoretical level through the case studies Detailed with reader friendly descriptions and supplemented by international research case examples and discussion questions Contemporary Theories of Career Development International Perspectives is the ideal reference work for students studying the topic as well as a stimulus for researchers and practitioners looking to implement the theories in their work

Sustainable Development, Career Counselling and Career Education Laura Nota, Salvatore Soresi, Ilaria Di Maggio, Sara Santilli, Maria Cristina Ginevra, 2020-11-02 This book is based on the Life Design paradigm and discusses the efforts made to overcome the matching paradigm between individuals and their work contexts in order to guarantee the adoption of an active role for future career planning Starting from the evolution of career counselling and vocational guidance in the 20th century and then following the more updated reflections in the Life Design paradigm this book discusses research results from the Larios Laboratory Padova Italy in collaboration with numerous international colleagues and institutions These results show that career counselling and vocational designing can not only help people to plan their future in agentive ways but also to help them getting out of the mists of the present and to project themselves into a future that is yet to be created This future is aligned by the world of research and international institutions such as the UN and WHO and follows the 2030 Agenda for Sustainable Development with particular attention to Sustainable Development Goals 4 8 and 12 This book reveals how trajectories can be created from one's own mission realized with the help of others and newly acquired strengths It shows how career counselling and vocational designing can help people to build their own future from an inclusive and sustainable perspective based on social justice and to help build a better future for all **Global Employment Trends for Youth 2012**, 2012 Incorporating the most recent labour market information available Global Employment Trends for Youth 2012 sets out the youth labour market situation around the world It shows where progress has or has not been made updates world and regional youth labour market indicators and gives detailed analyses of medium term trends in youth population labour force employment and unemployment *Career builders* Sylvia Nassar, Aisha

Al-Qimlass,2017-09-27 Global youth unemployment is a significant cause of poverty resulting in the persistent marginalization of populations Education and career counseling professionals and professionals in policy research and practice concur that the consequences of global youth unemployment are dire But leaders in these domains have not yet come to an agreement on the best ways to face this global challenge Our analysis of interdisciplinary literature on global youth unemployment is a first step in identifying and formalizing best practices for culturally appropriate career and workforce development worldwide This research will support education and career counseling professionals in developing appropriate career and psychosocial support interventions establishing empirical intervention efficacy and other program evaluation protocols and creating a capacity building infrastructure for knowledge sharing across policy research and practitioner stakeholder groups We also include a proposal for next steps to establish rigorous empirical support for these future initiatives
