Civil Protection and Domestic Security in Contemporary Hybrid Warfare Wojciech Wróblewski, Michał Wiśniewski, Jędrzej Bieniasz, 2025-05-22 Civil Protection and Domestic Security in Contemporary Hybrid Warfare presents a comprehensive approach to civil protection and domestic security in contemporary hybrid armed conflict Hybrid warfare encompasses a number of dimensions such as military political psychological cognitive space social economic informational or technological Current conflicts show that hybrid warfare despite regional differences is based on a common operational framework that combines conventional and unconventional tactics targeting not only military structures but also largely targeting civilians societies All this makes threats more diffuse subtle and difficult to predict They also often take the form of networked actions and have cascading effects in which they can produce complex secondary effects affecting a range of spheres of society and key infrastructure In response to this spectrum of threats individual states need to adapt their security and civil protection systems to the type of

threat involved However most existing solutions are fragmented resulting in a reduced ability to coordinate and adequately prepare civilians for hybrid threat conditions Given these challenges the book establishes a common language that helps shape coherent risk management and protective mechanisms in dealing with hybrid attacks It also points in a new direction in ensuring the reliability of information provided to civilians which is crucial in a hybrid war environment where disinformation is used as one of the main tools of destabilisation Drawing on theoretical knowledge and practical experiences from around the world the book provides tools to effectively respond to existing and future conflicts and hybrid wars Above and beyond this bridging the gap between concrete knowledge of hybrid warfare and operational needs this book explores how public administrations public services NGOs local communities and other actors play a key role in protecting the population during such non traditional armed conflicts Civil Protection and Domestic Security in Contemporary Hybrid Warfare is a vital resource to government and civilian specialists responsible for population security and protection helping them and their civilian populations to strategise and oftentimes to individually mitigate the risk of loss of life or health as has been demonstrated in the Russia Ukraine conflict
