Challenges in Cross-border Sales Within the Context of German-French Business Relationships** Yves Scheffler,2018 For decades Germany and France have been forming the core of the European Union They generate about 40 per cent of total economic output in the Euro Zone Nowhere else there does exist such an intense relationship between neighbouring economies like between these two countries Those links go far beyond external trade relations and are targeted towards mutual business cooperation In the light of globalisation a rising number of competitors increasing customer demands and short product life cycles cross national commerce are of great importance for German Small and Medium sized Enterprises SMEs particularly in the B2B sector Sales is often tagged as an enterprise s figurehead It is responsible for determining whether a manufacturer effectively conveys its capabilities to the B2B customer To date there exists no single reference book covering all four topics of this paper s headline B2B SMEs sales and Franco German business relationships The ongoing literature is mainly focussed on large firms The subject of international sales has hardly been investigated yet Apart from the sales excellence approach

there are few selling models for corporate practice The lack of sales expertise both in theory and practise is thus not the ideal prerequisite for succeeding on a cross border scale This study addresses sales challenges of German SMEs with its trading partner France in the B2B sector It should be stressed that the focus is on SMEs from Germany only The company size of French business partners does not play a role in this context The acquisition related part of sales selling is highlighted while the physical component distribution is secondary within the framework of this assignment In consequence the central question is to figure out what kind of challenges German SMEs must face when exerting B2B sales activities in France A related sub issue is defined as follows Which type of challenge has the greatest impact on cross border sales operations in France The declared purpose of this study is to answer the above mentioned queries Following the acquired basic knowledge this is done through an empirical survey Furthermore it is targeted to provide recommendations in order to enhance sales efficiency and effectiveness of German SMEs
