Modelling and Methodologies for Enterprise Integration Peter Bernus, Laszlo Nemes, 2013-03-09 Enterprise integration and enterprise engineering has become a focal point of discussions during the past few years with active contribution of many disciplines The evolution from the concept of CAD CAM through CIM to the Integrated Enterprise is based on the assumption that the integrated enterprise can and should be engineered just as any complex system can Database Management System Manish Soni, 2024-11-13 Welcome to the world of Database Management System This book is your gateway to understanding the fundamental concepts principles and practices that underpin the efficient and effective management of data in modern information systems In today's data driven age where information is often referred to as the new oil the role of DBMS cannot be overstated Whether you are a student embarking on a journey of discovery a professional seeking to enhance your knowledge or an entrepreneur aiming to harness the power of data for your business this book will serve as your comprehensive guide This Book Matters because Databases are the backbone of nearly every organization from multinational corporations to small start ups They store organize and retrieve data critical for decision making customer service product development and more Understanding how to design implement and manage databases is a vital skill in the digital age *Model Driven Engineering Languages and Systems* Jon Whittle, Tony Clark, Thomas Kühne, 2011-10-12 This book constitutes the refereed proceedings of the 14th International Conference on Model Driven Engineering Languages and Systems MODELS 2011 held in Wellington New Zealand in October 2011 The papers address a wide range of topics in research foundations track and practice applications track For the first time a new category of research papers vision papers are included presenting outside the box thinking The foundations track received 167 full paper submissions of which 34 were selected for presentation Out of these 3 papers were vision papers The application track received 27 submissions of which 13 papers were selected for presentation The papers are organized in topical sections on model transformation model complexity aspect oriented modeling analysis and comprehension of models domain specific modeling models for embedded systems model synchronization model based resource management analysis of class diagrams verification and validation refactoring models modeling visions logics and modeling development methods and model integration and collaboration Decision Sciences and Technology for Globalisation (ISDSI_2008) B.S. Sahaye, Jeet N.D. Gupta, Surinder Batra, Sanjay Kumar, Sushil Kumar, 2008-11-05 It is not uncommon to find books and other publications in the literature dealing individually with the subjects of decision sciences technology and globalisation However there are very few instances of books which integrate these three dimensions in an umbrella framework This publication is one such attempt This book comprises of 58 papers contributed by leading academia from universities and management institutes in India and abroad Many of the contributions have come from USA Canada UK Japan Australia New Zealand UAE Bahrain Taiwan Brazil and Mexico adding to the rich diversity of the thought processes explored in the papers Some of these papers are country specific while some

others provide a transnational perspective Also while some papers provide enriched conceptual frameworks in specific disciplines building upon existing frameworks several other papers provide application oriented coverage focused at select organizations or industries further adding unique value to this book There are eight sections in the book namely Supply Chain Management Operations Management Information Systems ICT IT E Business Strategies Business Modeling Global Business Issues Challenges Marketing and Globalisation New Paradigms in Education and Globalisation The issues touched upon by various papers within each section are diverse and yet highly relevant and contemporary We believe this book would be useful not only to academia research scholars and students of various disciplines of management but also to those in the industry in India and abroad who are seeking conceptual inputs and experience sharing in their respective positions
