Wijnekus,E.F.P.H. Wijnekus,2013-10-22 The first edition of this dictionary compiled by F J M Wijnekus and published in 1967  
was the result of years of systematic collection and preparation of thousands of terms and expressions which were until then  
not to be found in any other dictionary The material was correlated for use in his daily work and as the reputation of his  
private collection spread there was an increasing demand for access to these findings Until 1967 there was no  
comprehensive multilingual dictionary on the subject former publications were incomplete and out of date and lacked clear  
definition often leading to disastrous misunderstandings Furthermore the subject of printing paper and ink technology had  
never been dealt with in dictionary form in relation to other aspects of the graphic industry This new work prepared by F J M  
Wijnekus and his son has been considerably up dated Much time has been devoted to checking the material against the most  
reliable and authoritative sources The usefulness of the work has been further enhanced by the addition of Spanish and  
Italian to the original languages of English French and German The first edition was received with much enthusiastic praise  
and this new dictionary will undoubtedly continue to be an invaluable tool for all those working with the printed word in the  
widest sense It is a reference work which should be in the hands of all those in any way connected with the printing industry
