The Future of Internal Combustion Engines Antonio Paolo Carlucci,2019-09-11 Based on previsions the reciprocating internal combustion engine will continue to be widely used in all sectors transport industry and energy production Therefore its development while complying with the limitations of pollutants as well as CO2 emission levels and maintaining or increasing performance will certainly continue for the next few decades In the last three decades a significant effort has been made to reduce pollutant emission levels More recently attention has been given to CO2 emission levels too It is widely recognized that one single technology will not completely solve the problem of CO2 emissions in the atmosphere Rather the different technologies already available will have to be integrated and new technologies developed to obtain substantial CO2 abatement

Engine Fundamentals of Operation and Service ,1983-01-01

Computational Optimization of Internal Combustion Engines Yu Shi,Hai-Wen Ge,Rolf D. Reitz,2011-06-22 Computational Optimization of Internal Combustion Engines presents the state of the art of computational models and optimization methods for internal combustion

engine development using multi dimensional computational fluid dynamics CFD tools and genetic algorithms Strategies to reduce computational cost and mesh dependency are discussed as well as regression analysis methods Several case studies are presented in a section devoted to applications including assessments of spark ignition engines dual fuel engines heavy duty and light duty diesel engines Through regression analysis optimization results are used to explain complex interactions between engine design parameters such as nozzle design injection timing swirl exhaust gas recirculation bore size and piston bowl shape Computational Optimization of Internal Combustion Engines demonstrates that the current multi dimensional CFD tools are mature enough for practical development of internal combustion engines It is written for researchers and designers in mechanical engineering and the automotive industry
