Effects of Implementing the Learning Together Method on EFL Wondwosen Tesfamichael,2019-06-28 Doctoral Thesis

Dissertation from the year 2016 in the subject Pedagogy School Pedagogics course TEFL language English abstract The target of this research was to examine whether or not the effects of implementing the learning together method improved eleventh graders paragraph writing skills in terms of content vocabulary layout grammar and mechanics The research also examined the extent to which the implementation of the learning together method brought about changes on social skills in relation to communication leadership group management and conflict resolution skills The quasiexperimental research was employed and the sample population was taken from two sections of eleventh grade The learning together method was implemented in the experimental group after the students had been made to have awareness about it whereas in the control group the students were taught their lessons through the same method in which the elements and theoretical perspectives of the method were not used Data were collected through tests questionnaire structured nonparticipant observation checklist focus group interview and semi structured interview Dependent t tests were employed to test whether or not there were significant intra group differences in paragraph writing and social skills at 0 05 risk levels whereas independent samples t tests were used to check if there were significant inter group differences in paragraph writing tests and social skills questionnaire at 0 05 alpha levels The analyses of paragraph writing pre test and social skills pre questionnaire of the inter groups showed that both groups had similar backgrounds in writing paragraphs and practicing social skills at the initial stage of this research Nevertheless after the treatments had been given to the experimental research participants the analyses of the data indicated that the experimental group outscored significantly $p < 0.05$ *Composite International Diagnostic Interview (CIDI)*, 1994 Digital and Cultural Transformation in Primary Education. Teacher Engagement with Minecraft Education Edition Natasha Shroff, 2020-01-08 Bachelor Thesis from the year 2018 in the subject Didactics Business economics Economic Pedagogy grade 8 6 10 language English abstract With the fast paced change of society a transformation of education is vital in preparing today s students for tomorrow s challenges such as a technology based labor market A concept named 21st century learning has been developed by various stakeholders to frame the new type of skills required to succeed in the changing business environment In this study an investigation into primary school teacher engagement with emerging educational technology has been carried out in the case of Minecraft Education Edition a game based emerging educational technology The game was selected because it facilitates the learning of 21st century skills and hence provided a suitable choice to test various teacher technology engagement factors on a global scale 21st century skills were found to focus on students knowledge adaption and application rather than the traditional teaching based on knowledge acquisition and assimilation Concepts are based on a variety of skills such as basic ICT skills media literacy to support critical thinking in terms of data and conscious decision making informational computational thinking as well as the social and emotional learning aspect The latter being a critical component for graduates to thrive and collaborate in a continuously adapting environment This digital and cultural transformation requires students to take more responsibility ownership and

agency over their learning Hence time and place independent student centered and flexible learning are encouraged through 21st century education With the transformation of education new skill requirements for teachers were found to be essential for a 21st century skill transfer in primary schools Such requirements include high levels of teacher agency basic digital skills and pedagogical technological integration competences to take responsibility for the EdTech integration To apply technology effectively teachers are recommended to build their ICT self efficacy their own beliefs in their digital skills on a continuous professional learning journey To increase the latter engagement component measures such as sharing expertise and experiences in a global teacher community as well as pro actively seeking increased collaboration with teachers and students are recommended
