Art history Michael Hatt, Charlotte Klonk, 2025-03-18 Art History A critical introduction to its methods provides a lively and stimulating introduction to methodological debates within art history Offering a lucid account of approaches from Hegel to post colonialism the book provides a sense of art history s own history as a discipline from its emergence in the late eighteenth century to contemporary debates By explaining the underlying philosophical and political assumptions behind each method along with clear examples of how these are brought to bear on visual and historical analysis the authors show that an adherence to a certain method is in effect a commitment to a set of beliefs and values The book makes a strong case for the vitality of the discipline and its methodological centrality to new fields such as visual culture This book will be of enormous value to undergraduate and graduate students and also makes its own contributions to ongoing scholarly debates about theory and method

A Corpus of Rembrandt Paintings V Ernst van de Wetering, 2013-12-12 This volume is the fifth volume of **A Corpus of Rembrandt Paintings** a project devoted to all Rembrandt s paintings This is the work of The

Rembrandt Research Project consisting of a group of scholars led since 1993 by Professor Ernst van de Wetering The project began in 1968 with the aim of separating Rembrandt's own paintings from the vast number of Rembrandtesque paintings made by his many apprentices and followers Having opted for a chronological approach to the cataloguing of Rembrandt's paintings from 1625 till 1642 in the first three volumes it was decided in 1993 to adopt a thematic approach for further volumes This was largely to facilitate the recognition of different hands The new approach yielded much more information not only about Rembrandt's working methods but also about the function and meaning of his works This expanded field of view meant that etchings and drawings with similar themes also needed to be included In 2005 Volume IV appeared devoted to Rembrandt's self portraits in painting etching and drawing Volume V consists of a catalogue and analysis of the so called small scale history and genre paintings That theme was chosen because this type of complex work shows a variety of full length protagonists acting in different narrative settings For this reason in the 17th century painting etching or drawing biblical and mythological scenes was looked upon as an artist's greatest challenge The choice of this theme proved to be highly fruitful in several ways Small scale history pieces reveal Rembrandt's artistic ambitions most clearly They also offer the authors a much more accurate view of the daily routine in Rembrandt's studio his apprentices mostly copied this type of work or used it as a starting point for their own As a result it was easier to distinguish the works by the master himself from those of his pupils All aspects of the skills necessary to create a pictorial illusion play a part in the creation of small figured history paintings These aspects were referred to as the basis of the noble art of painting in Rembrandt's days Two seventeenth century painter theoreticians discussed these principles systematically in two books which up till now have only sporadically been consulted in the context of 17th century studio practice Karel van Mander wrote his *Grond der edel vry schilderconst* Basis of the Art of Painting in 1604 and Samuel van Hoogstraten produced his *Inleyding tot de hooge schoole der schilderconst* Academy of Painting in 1678 Van Hoogstraten was a pupil of Rembrandt between 1642 and 48 Comparing the two books and considering them in relation to Rembrandt's oeuvre gradually reveals his original views on painting and how these had developed during his career Thus the authors of this new Volume of *A Corpus* have gained an unexpected and profound insight into Rembrandt's ideas and approach to his art The basic aspects of painting included the following topics function and methods of drawing human proportions various positions poses and gestures of figures ways of arranging a scene's protagonists in a composition facial expressions of a variety of emotions light shadows and reflected light landscape and animals draperies and articles of clothing methods of painting and various characteristics and uses of colours The way these basic aspects were selected and dealt with presumed that the more practical side to the art of painting would be learned by the apprentice in the daily routine of his master's studio With the development of art history in the nineteenth century the basic aspects of the art of painting listed above acquired the vague label of style However the seventeenth century categorization of the basic aspects provides a much more acute means of probing the views and criteria for judging a

painting by Rembrandt and his contemporaries than the concept of style Volume V in the series A Corpus of Rembrandt Paintings breaks new ground from the point of view of art history not only in its approach to Rembrandt as an artist but more particularly to his thinking about painting Moreover a detailed comparison of Rembrandt's works and those by his apprentices who based their works on his led to a profound and detailed understanding of Rembrandt's views on pictorial quality In art historical literature quality usually does not feature prominently since it is regarded as being too subjective This comparative approach together with the analysis of seventeenth century categories of thought about painting have given the research on Rembrandt a new impetus at the same time allowing us to see more clearly through seventeenth century eyes That is why the new volume of the Corpus is an important publication not only for art historians but also for all who want to fully enjoy the numerous works of art that date back to the Dutch Golden Age now scattered in museums around the world **Annibale Fagnola, Annibalotto Fagnola, Stefano Vittorio Fasciolo, Riccardo Genovese** Giovanni

Accornero, Ivan Epicoco, Eraldo Guerci, 1999 **Which Degree?**, 1981 **Clothing and Style** William Henry Dooley, 1930 **Book Review Digest**, 1915 North Indian Temple Sculpture Urmila Agarwal, 1995 Illustrations 147 line drawings and 96 b/w illustrations Description Sculptural study provides a clear window to the socio economic and religious study of the past North India is full of numerous temples of early medieval period 9th to 13th centuries AD Contemporary temples in the south have already been covered by several authors but no such exhaustive study of the North Indian temples has been done An attempt has been made in the present work to study the sculptural wealth of the North Indian temples and to glean from it such light as they throw on the iconographic and cultural life of the people The ingenuity of the sculptors in carving icons of rare beauty and arrangement of ayudhas of geometrical designs and human figures in the small friezes complete to the minutest details is commendable and to be wondered at More so when we think of the ancient instruments and simple methods of working at their disposal The Pancadevas of Hindu mythology Vaisnavas Saiva and Sakta images Surya and Ganesa Kartikeya Dikpalas Navagrahas and Ganas Yaksas and Surasundaris all have been studied in great details The minor gods and goddesses like Nagadevas and Pisacas Sitala and Manasa also find place in the study Likewise Hinduism Jainism and Buddhism are dealt in great detail including Jain ascetics like Bahubali and Adisvaraswami and famous Buddhist monk Nagarjuna Scenes relating to schooling of children relations between husband and wife economic life war and political life customs habits and pastimes have also been studied *Art History: Fourteenth to seventeenth century art* Marilyn Stokstad, 2009 Art History Portable Edition by Marilyn Stokstad offers exactly the same content as Art History Third Edition but in smaller individual booklets for maximum student portability The combined six segment set consists of four booklets that correspond to major periods in Western art and two that cover global art Each book is available individually making them ideal for courses focused on individual periods Book 4 Art History Fourteenth to Seventeenth Century Art can be used for such courses as Fourteenth Century Art in Europe Fifteenth Century Art in Northern Europe and the Iberian
