Ownership of Proceeds of Corruption in International Law Kolawole Olaniyan, 2023-11-06

Recovery of proceeds deriving from corruption is now increasingly recognized as a principle of contemporary international law However people's sovereign and ownership rights over their wealth and natural resources have remained more theoretical than real especially in the global fight against corruption As a result the populations of victim states often cannot hold their governments accountable for misusing proceeds of corruption and do not benefit from the recovery repatriation management and use of returned proceeds In the first comprehensive study on the issue Kolawole Olaniyan challenges the conventional notion that sovereign and ownership rights over wealth and natural resources and by extension the proceeds of corruption should be exclusively exercised by states Olaniyan's Ownership of Proceeds of Corruption in International Law

examines the relationship between the right to wealth and natural resources proceeds of corruption and economic activities Focusing on victims of corruption the book argues that victim states populations ought to be empowered to pursue grand corruption and asset recovery actions against their governments It proposes theoretical and legal remedies for recovering proceeds of corruption encouraging the development of domestic laws [General Statutes of Kansas, 1909](#) Kansas, Charles Frederick William Dassler, 1910 [Report of Cases Determined in the Supreme Court and Court of Appeals of the State of New Mexico](#) New Mexico.
