These best practices have not been created simply to provide a standard; instead, they are based on the most important litmus test: what standards actually cause dashboards to be used, and what best practices of dashboard and report development provide insight into the business rather than just reports. This guide was started with the Siebel Analytics 7.8.x platform before Oracle acquired Siebel. The current version of the guide reflects Oracle's 10.1.3.3.x releases of Oracle Business Intelligence Enterprise Edition OBIEE. Expect this guide to be enhanced and revised with subsequent major releases of OBIEE. **Oracle VM Implementation and Administration Guide** Edward Whalen, 2011-08-05 Master the Powerful Virtualization Tools in Oracle VM.
