The Response Forms (questions and puzzles) check your understanding and appreciation of the sport or physical activity.

INTRODUCTION

Wrestling is a "basic sport" in the sense that it finally comes down to the strength and skill of one person pitted against that of another. Practically every muscle in the body is used in wrestling. Moreover, training must produce strength, speed and endurance. A participant must be in excellent physical condition.

The two most popular styles of wrestling practiced in the United States are the Greco-Roman style and Freestyle.

In the Freestyle form, a wrestler can use his/her hands, arms, legs and feet to overcome an opponent. This style also allows for great freedom of movement and allows both tripping and tackling.

The Greco-Roman style forbids the use of the legs and relies instead on arm and upper-body strength. The Olympic Games currently include both styles of competitive wrestling.

HOW WRESTLING MATCHES ARE PERFORMED

A wrestling match takes place on a mat with a circle in the center, about 28 feet in diameter. At the Olympic level, a match is composed of three 3-minute periods. On
