*The Integrator* Scott Coplan, 2022-03-24 When a 145 million IT project failure pushes Los Angeles to the edge of financial meltdown the County CEO asks Max McLellan a harried IT project manager aka The Integrator for help The County Board gives Max 30 days to identify the problem and find a solution At first Max finds the usual missteps but something bigger and darker beckons an explosive source of project failure He must do something different rattling ghosts of previous County IT failures unclocking crookedness and exposing truths that shatter careers With some people rooting for his failure Max battles to fit all the pieces together with the County team applying his proven framework to define the problem plan a solution and execute it successfully It s common knowledge that barely 50% of IT projects succeed per a 2017 Project Management Institute report Equally well known approximately 70% of large scale change management initiatives fail according to a 2017 McKinsey Co report Given the challenge to overcome these low success rates The Integrator offers a proven narrative on the organizational change framework for achieving Agile IT project management success based on the author s 45 year client experiences and published research The Integrator defines change management as the single overarching methodology integrating Agile IT and project management It does this because all projects are about change significant organizational and personal change The people involved their participation in and understanding and support of these changes ultimately determine IT projects success or failure In fact while all IT projects are about change successful projects change human behavior The methodologies included in the framework described in *The Integrator* include Change management as defined by AIM Accelerating Implementation Methodology Project management as defined by the Project Management Institute PMI Guide to the Project Management Body of Knowledge PMBOK Guide standard IT management as derived from the Institute of Electrical Engineers IEEE Guide to the Software Engineering Body of Knowledge SWEBOK standard Agile as defined by the Agile Alliance s Agile Manifesto Written by a certified Project Management Professional and accredited change management practitioner The Integrator chronicles the challenges involved in applying this framework in a real world setting to achieve successful project implementation

**Giving a Diamond** Naoya Katsumata, Wout van Bekkum, 2011-02-22 This volume contains fifteen essays in honor of Professor Joseph Yahalom who served as a lecturer at the Hebrew University from 1974 until he became full professor in 1985 The completion of his Warburg price awarded thesis in 1973 marked the start of a long and successful academic career in both Hebrew and Jewish studies with much emphasis on poetry and poetics Yahalom s continuing interest in and research

on ancient Piyut led to a number of editions of Hebrew and Aramaic texts as well as to studies on the early Palestinian vocalization system and the language of Piyut based on the Genizah findings In 1983 Yahalom was elected a member of the Academy of the Hebrew Language In 2003 he received the Yizhak Ben Zvi award for his lifetime study of Jewish history and Hebrew literature Yahalom s research on Hebrew medieval liturgical poetry focused on a period of roughly one thousand years from the days of early Byzantium until the final days of Jewish presence on the Iberian Peninsula and the Sephardic diaspora His bibliography testifies to his expertise of understanding Hebrew verse laying much emphasis on the interaction between the Jewish and surrounding cultures which concur with Yahalom s overall convictions and views about Jewish literature in context
