

A dark blue book cover with the word "Mindshift" in white, set against a background of a library bookshelf. The book is the central focus, with its cover slightly angled. The background shows the spines of many other books on shelves, creating a sense of a vast library. The lighting is soft, highlighting the texture of the book cover and the edges of the pages in the surrounding books.

Mindshift Barbara Oakley, PhD, 2017-04-18 Mindshift reveals how we can overcome stereotypes and preconceived ideas about what is possible for us to learn and become At a time when we are constantly being asked to retrain and reinvent ourselves to adapt to new technologies and changing industries this book shows us how we can uncover and develop talents we didn't realize we had no matter what our age or background We're often told to follow our passions But in Mindshift Dr Barbara Oakley shows us how we can broaden our passions Drawing on the latest neuroscientific insights Dr Oakley shepherds us past simplistic ideas of aptitude and ability which provide only a snapshot of who we are now with little consideration about how we can change Even seemingly bad traits such as a poor memory come with hidden advantages like increased creativity Profiling people

from around the world who have overcome learning limitations of all kinds Dr Oakley shows us how we can turn perceived weaknesses such as impostor syndrome and advancing age into strengths People may feel like they're at a disadvantage if they pursue a new field later in life yet those who change careers can be fertile cross-pollinators They bring valuable insights from one discipline to another Dr Oakley teaches us strategies for learning that are backed by neuroscience so that we can realize the joy and benefits of a learning lifestyle Mindshift takes us deep inside the world of how people change and grow Our biggest stumbling blocks can be our own preconceptions but with the right mental insights we can tap into hidden potential and create new opportunities

Redefining Smart Thom Markham, 2015-05-27 Equip Your Students To Create Their Own Intellectual Destiny The best teachers are the ones who can empower students to ask intelligent questions and persistently seek the answers In this book you'll find a proven detailed method for how to do this by learning A groundbreaking new approach to content delivery and instruction geared towards maximizing student discovery deep thought exploration and creativity Why educators must let go of student IQ as a concept that influences teaching methods in any way How to create a protocol driven environment that fosters deep sharing and reflection

Mindshift Dr. Marty Lerman, 2013-02-15 I'm too fat I MUST be successful I'm scared It's because when I was a kid Daddy is never home We all have frameworks we've built for ourselves throughout life Ways of being Of believing Glasses through which we see life Whether positive or negative they shape our whole being and affect our daily lives From being unsatisfied at home or in a relationship to impressions left with us from childhood we constantly live out of lives through these lenses we create in our mind In Mindshift Drs Marty Lerman and Samuel Kupper seek to take the reader on an experiential journey to show how simple changes in perception a reworking of the way we see through our own lenses can create drastic positive change Read about how one woman conquered cancer how a veteran came home and now lives without the lasting effects of war how kids no longer suffer from ADHD and more If these people can create these kinds of changes in their lives with just a simple shift of the mind imagine what you could do Your mind is powerful Harness it Shift
