Digi Learning Institute

Step 1: Define Your Objectives	Step 2: Understand Your Scope	Step 3: Choose the Right Software	Step 4: Quality Assurance	Step 5: Marketing Initiatives
• Pure web-based teaching or blended learning • How to boost recall and retention • Does your tech infrastructure support it? • Do your faculty and students show active support?	• Automate your assessment • Old and new tools • Educational units: Entire courses, seminars, particular lessons • Online exams or offline exams	• Select the right software to help you share your online courses • Do you understand the steep learning curve/challenges? • Will you require mobile support for smartphones and tablets users?	• Are you able to convey your ideas concisely and clearly? • Is there any misleading jargon? • Do the lessons work well on all required devices? • Does the technology support heavy multimedia content?	• How will learners benefit from it? • Will you send out newsletters or personal invitations? • Do you place ads announcements in front of your target audience? • Do you stay in contact with your 'alumni' and are responsive to their queries?

Follow this process to implement the e-Learning technology at your institution!
