Adopting and developing a cultural politics approach this comprehensive study explores how Hollywood movies generate and reflect political myths about social and personal life that profoundly influence how we understand power relations Instead of looking at genre it employs three broad categories of film Security films present ideas concerning public order and disorder citizen state relations and the politics of fear Relationalities films highlight personal and intimate politics bringing norms about identities gender and sexuality into focus In socially critical films particular issues and ideas are endowed with more overtly political significance The book considers these categories as global political technologies implicated in hegemonic and soft power relations whose reach is both deep and broad *The Routledge Handbook of the Politics of Brexit* Patrick Diamond, Peter Nedergaard, Ben Rosamond, 2018-05-08 The surprise decision expressed by the British people in the referendum held in June 2016 to leave the European Union was remarkable It also presents a natural experiment where the exposure of a society to an extraordinary event allows scholars to observe in real time in the real world the interaction of variables The Routledge Handbook of the Politics of Brexit takes stock of what we know in the social science community about the Brexit phenomenon so far and looks to make sense of this remarkable process as it unfolds The book asks simple questions across a range of areas and topics so as to frame the debate into a number of navigable subdiscussions providing structure and form to what is an evolving and potentially inchoate topic As such it provides a systematic account of the background for the content of and the possible implications of Brexit The handbook therefore does not examine in detail the minutiae of Brexit as it unfolds on a day to day basis but raises its sights to consider both the broad contextual factors that shape and are shaped by Brexit and the deeper sources and implications of the British exit from the European Union Importantly as interest in Brexit reaches far beyond the shores of the United Kingdom so an international team of contributors examines and reveals the global implications and the external face of Brexit The Routledge Handbook of the Politics of Brexit will be essential reading and an authoritative reference for scholars students researchers and practitioners involved in and actively concerned about research on Brexit British politics European Union politics and comparative politics and international relations *Cyber Security Politics* Myriam Dunn Cavelty, Andreas Wenger, 2022-02-15 This book examines new and challenging political aspects of cyber security and presents it as an issue defined by socio technological uncertainty and political fragmentation Structured along two broad themes and providing empirical examples for how socio technical changes and political responses interact the first part of the book looks at the current use of cyber space in conflictual settings while the second focuses on political responses by state and non state actors in an environment defined by

uncertainties Within this it highlights four key debates that encapsulate the complexities and paradoxes of cyber security politics from a Western perspective how much political influence states can achieve via cyber operations and what context factors condition the limited strategic utility of such operations the role of emerging digital technologies and how the dynamics of the tech innovation process reinforce the fragmentation of the governance space how states attempt to uphold stability in cyberspace and more generally in their strategic relations and how the shared responsibility of state economy and society for cyber security continues to be re negotiated in an increasingly trans sectoral and transnational governance space This book will be of much interest to students of cyber security global governance technology studies and international relations The Open Access version of this book available at [www.taylorfrancis.com](http://www.taylorfrancis.com) has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
