

Mastering KYC & AML Interview Questions

1. What is the purpose of AML and KYC regulations?

Answer) AML (anti-money laundering) is an umbrella term for the range of measures, controls, and processes that firms must put in place in order to achieve regulatory compliance.

Anti-Money Laundering regulations are in place to mitigate the risk of money laundering and terrorism financing. Financial institutions are required to monitor their clients to prevent money laundering and report any financial crime they detect to relevant regulators.

KYC is a component part of AML, and refers specifically to the means by which firms establish and verify their customers' identities, and monitor their financial behavior. Typically, the KYC process involves the collection and verification of a range of identifying information from customers including:

- Name
- Address
- Date of birth

Purpose of AML and KYC regulations:

AML (Anti-Money Laundering) and KYC (Know Your Customer) regulations are crucial components of financial oversight and risk management, these designed to prevent and combat illegal financial activities.

Federal Reserve is an important entity in the United States as RBI in India, AML and KYC regulations are typically overseen by various regulatory bodies, including the Financial Crimes Enforcement Network (FinCEN).

AML (Anti-Money Laundering) Purpose:

- Detect and prevent the conversion of illegally obtained funds (from activities such as drug trafficking, corruption, or fraud) into legal assets.
- Identify and prevent the flow of funds to support terrorist activities.
- Protect financial institutions from being unwittingly involved in illegal financial transactions, safeguarding their reputation and stability.

KYC (Know Your Customer) Purpose:

- Verifying the identity of customers to ensure that financial institutions are dealing with legitimate individuals or entities.
- Understanding their customers, financial institutions can assess the risk associated with each customer and tailor their services.
- Preventing identity theft and fraud by confirming the authenticity of customer information.

2. How do you verify a customer's identity during the onboarding process?
