Learning Calligraphy:

Confucian Perspectives on Learning and Self-Transformation Roland Reichenbach, Duck-Joo Kwak, 2020-05-18 This book bridges the regions of East Asia and the West by offering a detailed and critical inquiry of educational concepts of the East Asian tradition. It provides educational thinkers and practitioners with alternative resources and perspectives for their educational thinking to enrich their educational languages and to promote the recognition of educational thoughts from different cultures and traditions across a global world. The key notions of Confucian and Neo Confucian philosophy directly concern the ideals, processes and challenges of learning, education and self transformation which can be seen as the western equivalences of liberal education including the German concept of Bildung. All the topics in the book are of fundamental interest across diverse cultures giving a voice to a set of long lasting and yet differentiated cultural traditions of learning and education and thereby creating a common space for critical philosophical reflection of one's own educational tradition and practice. The book is especially timely given that the vocabularies in educational discourse today have been dominantly West centred for a long time even while the whole world has become more and more diverse across races, religions and cultures. It offers a great opportunity to philosophers of education for their cross cultural understanding and self understanding of educational ideas and practices on both personal and institutional levels.

CHINESE PAINTING Deng Qiaobin,2019-12-26 Chinese Painting An Intellectual History provides a panorama of Chinese painting from primitive times to the Qing Dynasty But it is not a mere list of various theories paintings and painters in chronological order Much space of the book is devoted to describing the political cultural and economic situations as well as the philosophical literary and academic elements that have influenced Chinese painting In its presentation of painters painting theories schools and genres the book combines general introduction with case studies and in so doing maintains an objective and unbiased stance To controversial topics such as the role of Buddhism and Taoism and

the division of Northern School and Southern School in landscape painting the book analyzes political and cultural causes but gives no definite answer thus allowing interpretation by the readers As the title suggests the book is not an exclusive discussion on painting theories otherwise a more appropriate title would be Chinese Painting Theories or A History of Chinese Painting By intellectual the author meant to include not only systematic painting theories and fragmented commentaries that are written in words but also the implicit and intangible message or thoughts underlying the creation of Chinese painting Therefore reading this book is not only a way of appreciating Chinese painting but also helps in understanding Chinese culture

Ellen Warren, 2016-01-04 Discover How to Make Amazing Calligraphy in Just One Day with This Easy to Use Guide Included Beautiful Designs with Step by Step Instructions and Illustrations Calligraphy is one of the most fluid forms of art today Typographers and iconographers as well as calligraphers use letters as a way of driving a point home more than just through the word itself but through the way the word impacts you Once you start looking at the way that words are made up you'll begin to see the many ways that you can change them to have a bigger effect on the viewer This is true of everything from invitations you send out to art you create for display Words have specific meanings but the way that a word is viewed versus heard can affect how it's perceived Calligraphy allows you to subtly enhance each letter putting in different flourishes curls and lines You can even add small pictures inside the words or letters to make each one a true type of art Even when you perfect your calligraphy it's still very difficult to get all your letters to look exactly the same each and every time Small differences work their way in which is part of what makes the finished effect so beautiful To get the same effect out of a font you'd have to go into each letter and warp it slightly and even then you wouldn't quite achieve the beauty that comes from working with your hands Of all the art forms that I've studied and used over the years calligraphy is one of the most under appreciated As I began looking at different fonts to reproduce I realized that what I was looking for was calligraphy A beautiful elegant way to express letters and words by hand on any media from cardstock to wood It didn't take me long to realize that calligraphy allowed me to personalize things far more than using a computer font or a sticker ever could I hope that you find similar uses for this art form once you begin as well
