in their own education because they make learning fun The different difficulties serve as levels for your child to test their knowledge and expand into a better understanding of new concepts When learning and playing are combined your child will begin to see their education as something they want to actively participate in rather than something they passively learn in a classroom Math riddles that make math exciting and engaging can teach kids the value of learning They mix up the tired formula of worksheets while showing kids how they can apply math to their daily lives in unique ways Letting kids figure out the answers to these puzzles teaches them problem solving skills that they can apply to all areas of life It also allows them to feel the joy that comes with working hard on something and coming up with the correct solution Providing gentle guidance towards the correct answer when your child is uncertain shows them that you are willing to take an active role in encouraging and supporting their education Math riddles teach critical skills while encouraging cooperation and engagement from the whole family
