*Nearly Nuclear* LeRoy Smith, 2021-09-01 When Consumers Power s plan to build a nuclear power plant in Midland Michigan was announced in 1967 it promised to free Michigan residents from expensive dirty coal fired electricity and to keep Dow Chemical operating in the state But before the plan could be completed

the facility was called an engineering nightmare a financial disaster a construction boondoggle a political headache and a regulatory muddle Most locals had welcomed nuclear power eagerly Why after almost twenty years and billions of dollars did this promise of a high tech coal free prosperous future fail And what lessons does its failure offer today as Americans try to develop a clean energy economy based on renewable power To answer these questions energy consultant and author LeRoy Smith carefully traces the design and construction decisions made by Consumers Power including its choice of reactor and its hiring of the Bechtel Corporation to manage the project He also details the rapidly changing regulatory requirements and growing public concern about the environmental risks of nuclear power generation An examination of both the challenges and importance of renewable energy this book will be of value to anyone interested in grappling with the complexities of our ongoing efforts to eliminate fossil fuels in favor of clean renewable energy
