Chicago Dal Cielo:

Chicago dal cielo Antonio Attini, Marcella Colombo, Gianfranco Peroncini, 2002 Gender, Honor, and Charity in Late Renaissance Florence Philip Gavitt, 2011-08-22 This book examines the important social role of charitable institutions for women and children in late Renaissance Florence Wars social unrest disease and growing economic inequality on the Italian peninsula displaced hundreds of thousands of families during this period In order to handle the social crises generated by war competition for social position and the abandonment of children a series of private and public initiatives expanded existing charitable institutions and founded new ones Philip Gavitt's research reveals the important role played by lineage ideology among Florence's elites in the use and manipulation of these charitable institutions in the often futile pursuit of economic and social stability Considering families of all social levels he argues that the pursuit of family wealth and prestige often worked at cross purposes with the survival of the very families it was supposed to preserve The matter of miracles Helen Hills, 2021-02-02 This book investigates baroque architecture through the lens of San Gennaro's miraculously liquefying blood in Naples This vantage point allows a bracing and thoroughly original rethink of the power of baroque relics and reliquaries It shows how a focus on miracles produces original interpretations of architecture sanctity and place which will engage architectural historians everywhere The matter of the baroque miracle extends into a rigorous engagement with natural history telluric philosophy new materialism theory and philosophy The study will transform our understanding of baroque art and architecture sanctity and Naples Bristling with new archival materials and historical insights this study lifts the baroque from its previous marginalisation to engage fiercely with materiality and potentiality and thus unleash baroque art and architecture as productive and transformational **Anatomy and Anatomists in Early Modern Spain** Bjørn Okholm Skaarup, 2016-03-09 Taking the Vesalian anatomical revolution as its point of departure this volume charts the apparent rise and fall of anatomy studies within universities in sixteenth century Spain focussing particularly on primary sources from 1550 to 1600 In doing so it both clarifies the Spanish contribution to the field of anatomy and disentangles the distorted political and historiographical viewpoints emerging from previous research Studies of early modern Iberian science have only been carried out coherently and collaboratively in the last few decades even though fierce debates on the subject have dominated Spanish historiography for more than two centuries In the field of anatomy studies many uninformed and biased readings of archival sources have resulted in a very confused picture of the practice of dissection and the teaching of anatomy in the Iberian Peninsula in which the highly complex conditions of anatomical research within Spain's national context are often oversimplified The new empirical evidence that this book brings to light suggests a far more multifaceted narrative of Iberian Renaissance anatomy than has been presented to date **Who's who in Opera** Maria F. Rich, 1976 An international biographical directory of singers conductors directors designers and administrators Also including profiles of 101 opera companies Il piu' grande disastro del mondo James Martin Miller, 1909 *Village Politics and the Mafia in*

Sicily Filippo Sabetti,2002-11-14 He suggests that the mafia emerged only in some parts of Sicily and was never a single overarching criminal organization It arose in fact from a self help tradition that eventually became corrupted and ultimately a burden on most villagers land workers and proprietors alike The local antimafia forces also became a drain on village life and by the middle of the 1950s both the mafia and the antimafia far from destroying one another had vanquished themselves The first study to extend rational choice institutionalism to Italian history and politics Village Politics and the Mafia in Sicily offers an in depth analysis of the impact of the abolition of feudalism in 1812 the unification of Italy in 1860 and subsequent regime changes on village politics in Sicily Sabetti details the emergence evolution and collapse of a local mafia and antimafia in a historical before after perspective Refocusing the study of village politics and the mafia he also suggests what can happen when those acting for the state regard ordinary people as passive voices in the game of life **The American Bar** ,2000

Memorie domenicane rivista di religione, storia, arte ,1926 **Minerva** ,1903 *Ecocriticism and Italy* Serenella Iovino,2016-01-28 Winner of the MLA Aldo and Jeanne Scaglione Prize for Italian Studies 2016 Winner of the American Association for Italian Studies Book Prize 2016 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com Written by one of Europe s leading critics *Ecocriticism and Italy* reads the diverse landscapes of Italy in the cultural imagination From death in Venice as a literary trope and petrochemical curse through the volcanoes of Naples to wine food and environmental violence in Piedmont Serenella Iovino explores Italy as a text where ecology and imagination meet Examining cases where justice society and politics interlace with stories of land and life pollution and redemption the book argues that literature art and criticism are able to transform the unexpressed voices of these suffering worlds into stories of resistance and practices of liberation [Il nuovo vangelo](#) Luigi Carnovale,1927 *Il Carroccio* Agostino De Biasi,1919 **Annali dello spiritismo in Italia** Teofilo Coreni,1894 *Annali dello spiritismo in Italia* ,1894 *Il Messaggero della salute* ,1927 **FF.** ,2000 **The Musical Leader** ,1929 [Gazzetta ufficiale della Repubblica italiana.
